UNITED STATES DEPARTMENT OF JUSTICE
Immigration and Naturalization Service
Washington 25, D. C.

Report of the Commissioner
of Immigration and Naturalization

The Attorney General
United States Department of Justice

Sir: I have the honor to submit the Annual Report of the Immigration and Naturalization Service for the year ending June 30, 1950. The report consists of a narrative report and statistical tables covering the accomplishments of the Service.

Mr. Watson B. Miller was Commissioner during most of the year reported, but resigned at the close of the year. The report has been prepared during my term as Acting Commissioner. It has been assembled under the editorial supervision of Mrs. Helen F. Eckerson, in the Division of Research, Education, and Information.

A. R. Mackey
Acting Commissioner

Immigration and Naturalization Service
December 1 1950

- Table 49. "Prosecutions for violating immigration and nationality laws: years ended June 30, 1941 to 1950"

INTRODUCTION

This Annual Report for the year ended June 30, 1950, is the record of the activities and accomplishments of the Government agency whose chief concern is with aliens in their relation to immigration and nationality laws. It is the chronicle of a year of grave responsibility for internal security from aliens with subversive tendencies, and of great accomplishment in terms of sheer volume.

The Service program has many facets. It is an adjudicative agency, for its officers must make many decisions affecting the lives of aliens seeking admission, or naturalization, or provide some discretionary relief from the harshness of laws in meritorious cases. It is an enforcement agency that must apprehend and compel departure of those aliens who break the laws either at the time of entry or after entry. It is, as the name implies, a service to aliens and citizens alike, for furthering the principles of democracy, through its fair treatment of aliens, its program for fostering citizenship education, and the day-to-day contacts with the public.

The impact of world conditions on the Immigration and Naturalization Service is forceful and immediate. Two dominant influences, crossing and intertwining, thread their way through the whole pattern of the year. The first of these — recovery from the effects of World War II — is seen in increased immigration, largely of displaced persons, and in the magnitude of illegal entries that is the outgrowth of the agricultural importation program in the Southwestern States. The second — guarding against communistic infiltration — is reflected in the whole field of investigations, deportations, and other enforcement activities.

Some of the elements that mark the year have been taken out of context and shown in the Introduction, since they have influenced so many phases of the work.

Immigration, 1950.—Following World War II, immigration increased from 38 thousand in 1945 to 188 thousand by 1949. The 249,187 immigrants

who found a haven in the United States in 1950 constitute the largest number admitted in any single year since 1930. Half of them, more than 24 thousand, were a small remnant of the innumerable hordes that were moved across the face of Europe, finally to be admitted to this country under the Displaced Persons Act of 1948. Other quota immigrants numbered 73,340, while 51,727, chiefly wives of United States citizens and natives of Western Hemisphere countries, entered as nonquota immigrants.

For 26 years the quota limitation for practically all countries except Western Hemisphere countries has served as a numeric brake on immigration. Under the Displaced Persons Act of 1948, however, this limitation has been removed temporarily by providing for mortgaging 50 percent of future quotas for those countries where the necessity exists. This accounts for the acceleration of the upward trend in immigration from Southern and Eastern Europe, and means that countries with small quotas such as Latvia, Estonia, and Lithuania have mortgaged 50 percent of their quotas for 90 to 175 years from now.

The 73,340 quota immigrants who were not displaced persons, added to the quota displaced persons, bring the total quota immigration to 197,460, thereby exceeding the annual authorized quota of 154,206 by 28 percent.

Illegal entries from Mexico — The shortage of agricultural laborers during World War II brought about a tremendous influx of laborers from countries of the Western Hemisphere, particularly Mexico. Many of them were admitted legally, under special legislation or under the Ninth proviso to Section 3 of the Immigration Act of 1917, as amended. However, ease of access to this country by way of the Rio Grande (which has earned the name "wetbacks" for illegal entrants from Mexico) and the willingness of farmers in the area adjacent to the Mexican border to employ "wet" labor, have created a problem that has grown from year to year.

From Texas, California, and the cotton areas of Arkansas, Mississippi, and Tennessee, west and north as far as Alaska, come reports of Mexican nationals in agricultural work who are here illegally. So great was the influx that almost 500,000 deportable aliens were apprehended by the Border Patrol in 1950 and were granted voluntary departure in lieu of deportation — since immigration officer personnel was totally inadequate to hold deportation proceedings in any but the most aggravated cases.

Comments from two District Directors state the problem and suggest some solutions.

From San Antonio, Texas: "The chief problem in this district is still the 'wetback'. Just what can and will be done towards effecting some practicable means of control cannot be foreseen, but it is hoped that some solution can be found. Whether additional legislation would be of any help is doubtful. We already have laws providing for the deportation of illegal entrants. About the only additional legislation that would appear to be of any help would be to make it an

offense to employ any alien unlawfully in the country. Something should be done soon because the wetback problem is creating a well-defined split among the people in the lower half of this State — a split which has given rise to bitterness on the part of some groups."

From Los Angeles, California. "No significant decrease in the present large number of laborers swarming out of the interior of Mexico with the intent to enter the United States illegally is anticipated. The increasing number of our apprehensions demonstrates the growth of the army of Mexicans who throng the towns on the Mexican side of the border — penniless, hungry and desperately anxious to obtain employment on this side of the line and earn some money to send to their families in Mexico. These considerations have caused us to propose that we operate a ship from San Diego to Central Mexico. The operation of this plan for even a few months would largely eliminate 'repeaters' who are expelled across the border one day, only to try legal entry again the next day."

Subversives — In the conflict of current history the Immigration and Naturalization Service fulfilled an important function in 1950. The guerrilla warfare of ideas is fought principally by infiltration into the body politic of those people whose political convictions and dogmas conflict with those of this democracy. The uniform of communist ideology is not easy to identify. It may be a guise worn by a citizen or an alien. When worn by an alien or a naturalized citizen, it becomes the proper function of the Service, by every adjudicatory and enforcement means available, to subvert these ideological warriors.

The passage of the Internal Security Act on September 23, 1950, accelerates and makes more specific the anti-subversive enforcement of immigration and nationality laws. But even before the passage of that Act, the Service in its investigative and other enforcement activities was giving emphasis to internal security.

The anti-subversive operations of the Service are in four major inter-related categories: (1) the prevention of entry of aliens whose presence may be detrimental to internal security, (2) the deportation of such aliens, (3) the denial of naturalization to those whose previous conduct makes them suspect of subversive activity, and (4) the revocation of naturalization for those who obtained their United States citizenship through fraud or misfeasance.

(1) Exclusion of Aliens — The protection of public safety requires the exclusion from the United States of aliens who bring with them ideologies which are subversive to national security. Under immigration laws supplemented by Federal Regulation (8 CFR 175.57, 260) aliens seeking to enter as immigrants or visitors were temporarily excluded from admission to the United States when there was reason to believe that their admission would

be prejudicial to the public interest.

One hundred and fifty-four temporary exclusions were made permanent by order of the Attorney General without according a hearing before a Board of Special Inquiry. The excluding decisions were based on confidential information (the disclosure of which would be detrimental to public interest). During the preceding fiscal year, 255 aliens had been temporarily excluded and 23 exclusions had been made permanent without Board of Special Inquiry hearing. The tremendous increase in the number of permanent exclusions stems from several factors. Expedious investigations made the cases ready for adjudication much more quickly than in the preceding year. Again, the promulgation of President's Proclamation No. 2850 of August 17, 1949, greatly facilitated final action in such cases by vesting the decisive authority to exclude in the Attorney General. Therefore, the Attorney General was required to consult with the Secretary of State before an excluding order could be entered.

Of the 54 aliens whose temporary exclusions were made permanent, 147 were applicants for admission at ports of entry on the Canadian border. This high incidence of Canadian exclusions flows logically from the fact that many residents of Canada may enter the United States for temporary visits without securing travel documents or visas from an American Consul. They are thus free from the weeding out process which follows from consular screening.

In addition to the aliens excluded who had sought entry as immigrants or temporary visitors, 229 alien seamen were ordered detained or boarded the vessel on arrival because of membership in subversive organizations. These seamen had arrived on 28 vessels at 5 ports of entry. The rapid detection and deportation was made possible largely as a result of "look out" notices distributed to the various ports of entry.

During the past year, the Attorney General's authority to exclude under 8 CFR 75.57 without according a hearing before a Board of Special Inquiry was sustained by the United States Supreme Court in the case of U.S. ex rel. Knaufl v. Shaughnessy, 338 U.S. 537. This definitive decision is especially important at a time when the present is the proper performance of Service responsibilities under 8 CFR 75.57 can be of significant importance in safeguarding our national security.

2. Deportation of subversive aliens. The Act of October 6, 1948, as amended, provides for the deportation of aliens who hold subversive beliefs as well as for aliens who have been members of or affiliated with subversive organizations. Past experience has indicated that aliens in the latter category will seldom admit their association with proscribed organizations. In such cases, evidence must be had to establish, first, whether the alien has been a member of or affiliated with the organization in question, and, second, whether the organization falls within the statutory ban. Moreover, since the alien against whom deportation proceedings have been instituted is entitled to a hearing on the charges, the evidence must be of such quality as to be admissible in a quasi-judicial proceeding and as to meet the tests of fair administrative practice.

During the year just ended, 2,323 aliens were investigated to determine whether they were deportable under this Act. On the evidence produced by the investigations, warrants of arrest in deportation proceedings were issued in 104 cases. Hearings under such warrants were held in 78 cases between July 1, 1949 and February 20, 1950, on which date the United States Supreme Court announced its decision in the case of Wong Yang Sung v. McGrath, 339 U.S. 33.

(3) Denial of naturalization under Section 305 of the Nationality Act.—Section 305 of the Nationality Act of 1940 prohibits the naturalization of any person who advises the overthrow of the Government by force or violence, who is a member of or affiliated with an organization which has those aims, or who contributes to the support of such organizations. The prohibition extends for a period ten years prior to the date the petition for naturalization is filed. During the past year investigations were completed of 17 organizations. As a result of our investigation of the International Worker Order, that organization has been found to be within the proscription of Section 305, and recommendations for denial are being made in the cases of petitioners who were members of this organization during the statutory period.

(4) Revocation of naturalization under Section 338 of the Nationality Act.—In many instances, evidence of subversive or proscribed activity on the part of naturalized citizens gives rise to the possibility that they may have obtained their naturalization by fraud or illegality. In such cases, investigation is conducted to see whether the naturalization is subject to revocation under Section 338 of the Nationality Act. During the past year investigation was initiated in 1,244 cases of this type. Revocation proceedings were authorized against 10 naturalized citizens because of their subversive activities prior to naturalization.

An outstanding case was the successful prosecution in the United States District Court in San Francisco of Harry Reuton Bridges, who was convicted of perjury in a naturalization proceeding. Revocation of naturalization was ordered by the court under Section 338(e) of the Nationality Act of 1940 after his conviction on other charges.

Smuggling, Stowaways, and Deserting Seamen—Notwithstanding the fact that 520 alien stowaways were detected and excluded on arrival at various seaports in the United States last year, it is increasingly apparent that many stowaways are able to effect a landing undetected. This is affirmed by the fact that 155 of the illegally resident aliens apprehended in this country in the past year admit having arrived by the stowaway route. While criminal prosecution and deportation may act as deterrents of a sort, it is obvious that this is only a partial solution, and that the only real solution lies in preventive action.

It is virtually impossible for a person to remain undetected aboard ship over a number of days and be supplied with the minimum necessities of life unless he has outside assistance. In many instances, crew members individually have assisted stowaways, often for a pecuniary consideration. Recently, however, the incidence of stowaways points to the existence of

smuggling rings, highly organized and operating on a large scale over both our land and sea borders.

Smugglers are resorting to new techniques in plying their trade. The airplane has now joined the ship and the automobile as a vehicle for this illicit traffic. Among the smuggling rings broken up during the last year was one which used eight airplanes in bringing European aliens from Cuba to Miami under cover of night. This gang succeeded in landing 26 aliens before it was stopped by the joint efforts of the Investigation and Border Patrol Sections of the Service. (Twenty of these aliens have since been apprehended and appropriately dealt with.) The pilots of the aircraft and their accomplices were convicted and sentenced to imprisonment for terms ranging up to eight years. Interestingly enough, after conviction and while at large awaiting sentence, the pilots attempted to smuggle in two Chinese aliens from Cuba, and were apprehended in the act by Border Patrol Officers when their airplane landed near Miami.

There is evidence that there may be organized smuggling of Italian subjects into the United States. In one district, 52 Italian nationals, most of whom are from the vicinity of Palermo, Sicily, were apprehended in the last six months. The majority of these entered at Southern and Eastern seaports as stowaways, but 12 of them entered from Canada, either with the assistance of smugglers or by evading inspection. Recently, over 100 East Indians, who arrived at various ports in the United States as seamen, have been apprehended in the San Francisco District. They had gravitated to certain agricultural regions within the District.

Among the aliens apprehended during the past year who had effected entry through the medium of smuggling gangs were criminals wanted by the police in their native lands, aliens previously deported on grounds which preclude readmission, as well as aliens from the low-quota countries who were unwilling to wait until they could enter by lawful means. Apprehension of these aliens has led in some instances to the detection of the smugglers, and some inroads have been made. The detection and breaking up of smuggling operations remains, however, one of the most serious problems confronting the Service during the current fiscal year.

Wong Yang Sung Decision —On February 20, 1950, the Supreme Court, in the case of Wong Yang Sung v. McGrath, held that administrative hearings in deportation cases must conform to procedural requirements of the Administrative Procedure Act (5 U S C 1001 et seq.), if resulting orders are to have validity.

Wong Yang Sung was a Chinese seaman who overstayed his shore leave. The Immigrant Inspector who held the hearing after arrest recommended deportation. The action was approved by the Acting Commissioner, and the Board of Immigration Appeals confirmed the order.

Mr. Sung sought release from custody by habeas corpus proceedings, on the grounds that the administrative hearing was not conducted in conformity with the Administrative Procedure Act.

The law as applied by the Supreme Court in the Wong Yang Sung case is revolutionary in the basic concept of immigration policy. It treats the subject as if it were of a judicial character. During all previous history it has been dealt with under the highest judicial sanctions as a political question in which the sovereign had rather complete and flexible power to deal with an everchanging and often paramount problem vital to the social and economic welfare of the nation. The immediate effect of the Supreme Court decision was to bring into question the validity of certain other hearings in deportation proceedings in which the subject alien had not been deported. The Immigration and Naturalization Service had to adjust its procedures and regulations to comply with the decision. The effect of the decision was most dramatically indicated when the number of deportations dropped from 568 in February 1950 to 99 in March, and 96 in April.

The regulations relating to the conduct of the hearings had to be entirely revised. Hearing Examiners needed to be appointed. Prosecutive and adjudicative functions had to be completely separated so that one officer no longer acts as "investigator, prosecutor, and judge". Thousands of cases in various steps of completion had to be reheard de novo, adding considerably to an already heavy workload. As a result of the decision it was necessary to immediately thereafter effect about 100 temporary appointments of Hearing Examiners. All positions involving the holding of formal hearings in deportation proceedings formerly held by immigrant inspectors were abolished. The functions were assigned to a new position of Hearing Examiner.

While the Supreme Court decision stressed the point that Congress had determined that the "price for greater fairness is not too high", the effect of the statute as applied to immigration processes was not only to increase cost, but also to create many opportunities for delay. It resulted in the detention of aliens for weeks instead of two or three days. Typical difficulties are reported by one District Director:

"Hearings, before designated Hearing Examiners only serve to confuse the ordinary Mexican alien. (It is not difficult to understand why an untutored Mexican alien finally wailed despairingly, Mister, I don't know what you are talking about; all I want is to get out of here and go back to Mexico).

"Most of the Mexican aliens held in deportation proceedings are unable to employ counsel and are not, in fact, represented by an attorney; in the very nature of things our proceedings are very complicated and are most confusing to such unrepresented aliens, they serve to increase the period of their detention, and have not resulted, and will not result, in any advantages to the aliens that might have been in contemplation by the Supreme Court in rendering its decision in the Sung case."

As this report is being written the Service is making another about face, since the Third Deficiency Appropriation Act, approved September 27, 1950, contained the following provision:

"Proceedings under law relating to the exclusion or expulsion of aliens shall hereafter be without regard to the provisions of Sections 5, 7, and 8 of the Administrative Procedure Act (5 U.S.C. 1004, 1006, 1007)."

Decentralization — In the field of administration, effective changes were made that have resulted in better public service and greater administrative efficiency. Certain functions heretofore exercised by the office of the Commissioner were delegated to the 16 District Directors.

Among the decisive functions delegated to District Directors are those relating to.

1. Issuance of all warrants of arrest and deportation.
2. Petitions for the issuance of immigration visas in nonquota or preference quota status, unless the citizen relatives filing the petition are residing abroad.
3. Applications for reentry permits, and extensions thereof.
4. Applications for registry of aliens under the Nationality Act of 1940.
5. Applications for certificates of derivative citizenship.
6. Applications for replacement of lost, mutilated, or destroyed declarations of intention ("First papers").
7. Applications for removal of distressed aliens from the United States.
8. Applications for duplicate Alien Registration receipt cards.
9. Applications for voluntary departure and preexamination in Canada.

Following the decentralization of functions to Field Offices, a new concept of file handling was developed. This concept calls for a single file containing all records dealing with admission, exclusion, deportation, and naturalization of aliens, the file to be retained in the District having jurisdiction over the alien's residence. To carry out this plan requires the decentralization of three and one-half to four million files now held in the Central Office, in addition to files which will be established in the future for newly arriving immigrants. All files relating to newly arriving immigrants are decentralized, as well as files relating to aliens who submit a change of address card and files specifically requested by field officers in connection with pending action. At the end of the fiscal year 1950, 168,000 files had been decentralized. One District Director summed up the effects of the decentralization program at the end of four months of operations, as follows:

"The plan was boldly conceived and naturally caused some confusion in the early days of operation. Order is being restored, and the benefits of the plan are already noticeable. It definitely permits of greater service to the public, and, paradoxical as it may seem,

also results in better enforcement. better enforcement results from the fact that the applicant and all records are before the official who is required to make the decision."

Tabulating equipment is used to decentralize the files. With this equipment, preparation of the Alien Registration card, the field index card, and the Central Office docket control card for each file is accomplished from a single punched card. Before the end of the next fiscal year, the certificate of arrival and a nationality docket card will also be included among the documents prepared in this operation. The use of tabulating equipment is estimated to have saved thousands of hours of personnel time that would be required to perform manually the various processes necessary in connection with each file that is decentralized.

The consolidation of records in the District of the alien's residence will greatly expedite the handling of records, however, only if the alien reports his change of address as required by the Alien Registration Act of 1940, (and more recently by the Internal Security Act of 1950). Failure to make such a report will inevitably result in delays at the time when an alien requests service of the District Offices.

LEGISLATION AND LITIGATION

In the course of the fiscal year the General Counsel — the law officer of the Service — drafted or approved 1,963 reports expressing the view of the Service on both public and private bills. Thirty-eight pieces of proposed legislation were drafted, and there were 1,673 other undertakings requiring consideration of legislative matter.

Legislation enacted.—On April 20, 1950, S. 3455 — an omnibus bill having as its objective the complete revision of immigration and nationality laws was introduced in the Senate. Possibly because of this measure, which would include changes embodied in other independent bills, there were few public laws relating to immigration and nationality enacted in the past fiscal year.

One of the more important legislative enactments of the year affecting the work of this Service was Public Law No. 555, approved June 16, 1950, which amended the Displaced Persons Act of June 25, 1948. Under the amending Act the number of refugees and displaced persons who may be admitted to the United States is enlarged to a grand total of 415,744. Provisions of the 1948 Act which were challenged as discriminating against racial and religious groups are eliminated. Additional safeguards are provided against the entry of those whose admission to the United States would be against the national interest. Primary responsibility for administering the statute remains in the Displaced Persons Commission. However, the Department of State is given authority to determine eligibility for certain groups outside Germany and Austria. While the Displaced Persons Commission, generally, is empowered to determine eligibility for benefits, its determinations are subject to veto power entrusted to the Foreign Service of the Department of State and this Service. The amended Displaced Persons Act continues the responsibility of the Immigration and Naturalization Service, relating to adjustment of status of displaced persons residing in the United States. The date for issuance of visas under the Displaced Persons Act generally is extended to June 30, 1951, although in some instances (such as applicants who are orphans or German expellees), visas may be issued until June 30, 1952.

The amendment of the Act adds provisions which have increased the responsibilities of the Service. No visa may be issued to any alien whose admission must be based upon the submission of an assurance of suitable employment unless and until he executes a signed statement accepting and agreeing in good faith to abide by the terms of employment provided in the assurance. Upon a finding that the statement was falsely made, the alien is to be deported.

Every displaced person admitted on the basis of an assurance of employment must report twice each year, until four reports have been made, respecting the nature and place of his employment and the place of residence of himself and members of his family. Willful violation of this requirement, enforcement of which lies with this Service, renders the alien subject to a fine of up to \$500 or imprisonment up to six months.

No visa may be issued to any displaced person whose admission would be against the national interest. Upon arrival at a port of entry the displaced person must take and subscribe an oath or affirmation that he is not and has never been a member of any organizations or movements contrary to the United States and its form of government. If the oath is willfully false, the alien may be prosecuted for perjury. If anyone not entitled to a visa under these provisions nevertheless is admitted, he is to be taken into custody and deported.

Public Law 587, approved June 30, 1950, is another law making quota provisions for a special group of immigrants. It provides relief for the sheep-raising industry by making 250 special quota immigration visas available to certain alien sheepherders for a period of one year.

Other enactments during the year relating to immigration included

The Act of September 7, 1949, Public Law 295, amended subsection (e) of Section 311 of the Philippine Rehabilitation Act of 1946 by extending until June 30, 1951, provisions and appropriations for the training of Filipinos whose admission to the United States as students for training and instruction was authorized by the Act.

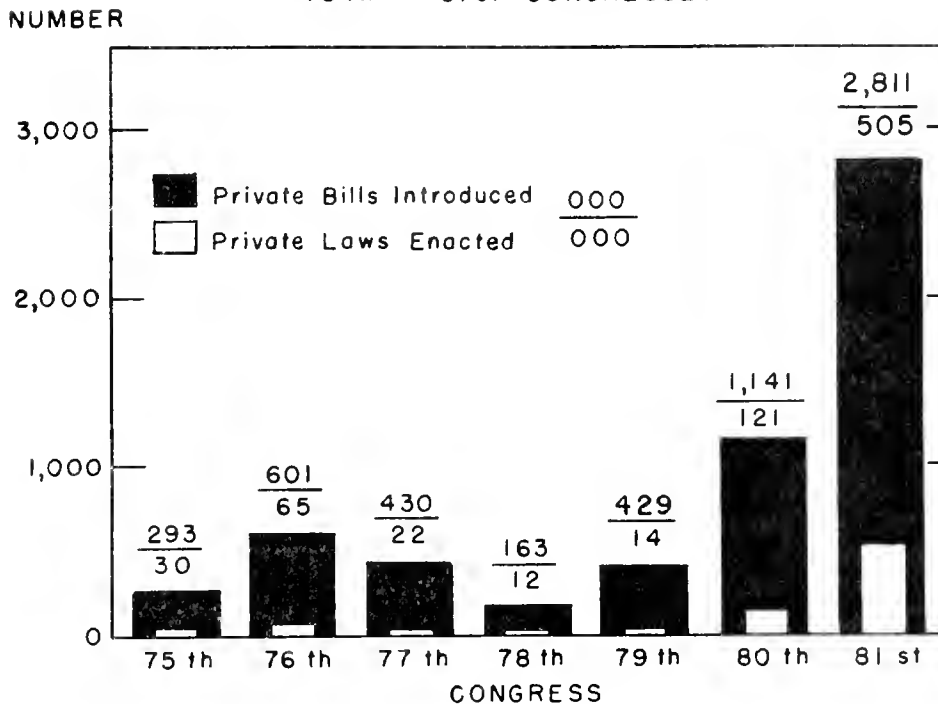

The Foreign Economic Assistance Act of 1950, Act of June 5, 1950, Public Law, 535, in Section 202 makes funds available to the Secretary of State for the necessary expenses of selected citizens of China, for study, teaching, or for research and related academic and technical activities in the United States. It also authorizes the Attorney General to promulgate regulations that such citizens of China shall be granted permission to accept employment upon application filed with the Commissioner of Immigration and Naturalization.

In the field of nationality legislation, Public Law 597, approved June 30, 1950, provides for the enlistment of aliens in the armed forces, and in Section 4 provides that the provisions of Section 324A of the Nationality Act of 1940, as amended by the Act of June 1, 1948 (Public Law 567, 80th Congress), are applicable to aliens enlisted or reenlisted.

pursuant to its provisions. The Act also provides that any such alien who subsequently enters the United States pursuant to military orders, shall, after completion of five or more years of military service, if honorably discharged therefrom, be deemed to have been admitted to the United States for permanent residence within the meaning of Section 324A.

In recent years the number of aliens who seek an adjustment of status by Act of Congress has increased tremendously.

NUMBER OF PRIVATE BILLS INTRODUCED
INTO CONGRESS AND ENACTED
75 th - 81 st CONGRESSES

There were 202 private bills approved last year, in comparison with 23 in the fiscal year 1949, and 117 in 1948. While comparatively few, (less than ten percent) of the private bills are enacted into laws, the increase in the number of such bills introduced is becoming an exacting tax on the investigative force of the Service. When private bills are introduced, a request is made of this Service for a report on the beneficiaries of the bill. These cases are given top priority in field investigations.

Litigation.—A function of the General Counsel is, generally, to direct the field service in litigation throughout the United States arising from operations of the Service, and also, upon request, to prepare legal memoranda and briefs or otherwise assist United States Attorneys and the Department of Justice in connection with such litigation.

Litigation cases handled included:

Criminal cases.....	53
Revocation of naturalization cases ..	289
Admission to citizenship appeals. . . .	152
Habeas corpus cases.	268
Section 503, Declaratory Judgment Act cases	98
Administrative Procedure Act cases. . . .	37
Claims, fines, penalties.....	209
Miscellaneous litigation and correspondence	2,278

Court Decisions affecting Service functions:—The past fiscal year was one in which court cases relating to immigration and naturalization matters increased both in volume and in importance in terms of their effect on the administration of immigration and nationality laws

During the past fiscal year eight cases involving matters before this Service, were decided by the United States Supreme Court as compared with three cases mentioned in the Annual Report for the fiscal year 1949. The highest court denied certiorari in nine other cases during the past year, as compared with four the previous year. At the end of the past fiscal year there had been filed with the Supreme Court five additional cases, in one of which certiorari had been granted. ^{1/} Of the cases decided the most important was that of Wong Yang Sung, discussed in the introduction to this report

Other decided cases also involved issues of importance. Of those pending before the Court the most important is that of McGrath v Kristensen in which the Court has granted certiorari. That case, like the Wong Yang Sung case, involves provisions of the Administrative Procedure Act, testing whether deportation proceedings are jurisdictionally subject to the judicial review prescriptions of Section 10 of that Act (5 U S C 1009). The case also involves an important substantive issue.

The increase in litigation involving Service responsibilities was even more pronounced in the United States Courts of Appeal ^{2/} where 45 cases were decided during the past year (exclusive of those which went to the Supreme Court), as compared with approximately 21 cases decided by the Circuit Courts of Appeal during the preceding year. New issues arising to be tested in Federal District Courts included many resulting from the application of procedural requirements of the Administrative Procedure Act. A backlog of cases in some District Courts involved other issues, including cases arising under Section 503 of the Nationality Act of 1940 (8 U S C 903) upon questions of citizenship

United States Court of Claims.—The last important cases decided by the United States Court of Claims in relation to Service matters were those of

^{1/} For list of cases see Appendix 1, United States Supreme Court cases

^{2/} For list of cases, see Appendix 1, United States Courts of Appeal cases

Gibney v. The United States, No. 48572, Joseph M. Ahearn v. The United States, No. 48610, and Donald M. Taylor v. The United States, No. 48611, decided on June 6, 1949, and reported in the last Annual Report. However, those decisions in favor of plaintiffs served as precedents for other suits in which approximately 750 other immigrant inspectors during the past year claimed back-pay similarly earned during the fiscal year 1948 under the provisions of the Immigration Employees Overtime Act of March 2, 1933 (8 U.S.C. 109 (a) (b)). These suits, insofar as they are controlled by the Gibney-Ahearn-Taylor decisions, require only auditing and payment processing upon any judgments entered by the Court.

Not to be overlooked in importance, however, are the suits now pending before the Court of Claims by Harry B. Greene and Glenn J. Toney, cases No. 47418 and 47511 respectively, in which plaintiffs seek payment of extra compensation for services performed by them on Sundays and holidays as inspectors of the Border Patrol. During the past year hearings were held by the Commissioner for the Court, and briefs are being submitted in the view that these suits will be decided during the Fall term of the Court. These cases, if decided in favor of plaintiffs, could result in hundreds of suits or claims for back pay by other Border Patrol inspectors of the Service.

General issues and problems reflected by litigation - During the past year, the courts indicated an increasing disposition to look carefully into the exercise of discretion by administrative authorities to determine whether there was an abuse of discretion in denial of relief from deportation processes. The Wong Yang Sung decision by the Supreme Court, previously cited, settled the issue of applicability of the procedural requirements of the Administrative Procedure Act to deportation hearings with the result that many lower court cases pending upon that issue were promptly disposed of. But in the wake of the decision new litigation arose, as well as many new administrative problems of the Service in adjusting its regulations and processes to the requirements of that decision. These suits remained in the courts, pending decision by the Supreme Court. In the Kristensen case, previously cited, the very important issue as to whether Section 10 of the Administrative Procedure Act applies to give the courts jurisdiction to review deportation orders. Decisions in the lower courts throughout the country, and pending court cases involving that issue, are numerous, and will possibly be disposed of if the Supreme Court passes squarely upon that issue in the Kristensen case.

Litigation arising during the year under Section 503 of the Nationality Act of 1940, in which plaintiffs sought judgments declaring them to be citizens brought forth a variety of procedural and substantive issues, the right of jury trial in such litigation, the proper use of Service records as evidence; and whether a previous decision in a habeas corpus proceeding that a petitioner was not a citizen, was res adjudicata so as to bar him from relief under Section 503. Substantial claims of citizenship arose most frequently in the cases of persons abroad, who had been administratively held to be expatriated because they had taken some affirmative political action in a foreign state as set forth in Section 401 of the Nationality Act of 1940. The petitioners claimed their actions were under circumstances

amounting to duress.

Some of the issues arising upon which interest centers are: the power of the Attorney General to exclude aliens solely upon his finding that their admission would be prejudicial to the interests of the United States (see the Knauff case decided by Supreme Court, Appendix I); whether refusal to serve in the armed forces of the United States disqualifies an alien for United States citizenship (see Cohnstaedt case, decided by Supreme Court, Appendix I); whether granting of exemption from military service to a neutral alien disqualifies such alien for naturalization and discretionary relief from deportation; whether minor sons of aliens who entered the United States as treaty merchants have permanent lawful residence for naturalization purposes, whether aliens employed on vessels registered in foreign countries but operated by a subsidiary of the United States Government may qualify for citizenship under Section 325 of the Nationality Act of 1940, and similar questions involving vessels operating from "home" ports in the United States or abroad under various circumstances of registry or control; and whether court judgments based upon consent and waivers of defense, by which United States citizenship of various persons was revoked during the war years, may now be set aside or the aliens entitled to have their cases restored on petitions for hearing before the court.

In general, the Service was on the defensive during the year in a wide variety of litigation which tended to result in decisions favorable to the aliens, with the result that more aliens may be encouraged to seek recourse to test issues and seek judicial relief in the future. Also, there was a rising trend for aliens to seek relief through private legislation. In some instances, indeed, court actions and the enactment of private bills were sought concurrently.

Prosecution for violating the immigration and nationality laws.—The number of convictions for violations of immigration and Nationality laws continued to be high. In addition to the provisions in the immigration laws whereby violators of immigration laws may be deported or allowed to depart voluntarily under administrative proceedings, there are also contained in the immigration laws, as well as in Title 18, United States Code on Crimes and Criminal Procedure, provisions for the prosecution in the courts of certain violators of immigration and nationality laws. Prosecutions are generally instituted by complaint filed with the United States Commissioner, by indictment, or presentment of a grand jury, or by information filed by the United States Attorney.

During the fiscal year ended June 30, 1950, prosecutions were instituted in 11,445 cases involving violations of immigration laws and 370 cases involving violations of nationality laws. Such prosecutions resulted in a total of 10,622 court convictions during the year, with an aggregate imprisonment of 1,961 years and fines aggregating \$88, 58.

Ninety-two percent of the convictions last year were made under Sections 1 and 2 of the Act of March 4, 1929, for illegal entry. Convictions were made in 298 cases for violation of nationality laws, chiefly under

Section 911 of Title 18, United States Code, for false representation as a

UNITED STATES DEPARTMENT OF JUSTICE
IMMIGRATION AND NATURALIZATION SERVICE
WASHINGTON 25, D. C.

PLEASE ADDRESS REPLY TO

OFFICE OF THE COMMISSIONER

AND REFER TO THIS FILE NO.

April 30, 1951

We are pleased to send you a copy of the Annual Report of the Immigration and Naturalization Service for the year ended June 30, 1950, as submitted to the Attorney General.

It contains a summary of Service activities and statistical tables covering immigration, emigration, naturalization, deportation, detention, and border patrol activities.

Sincerely yours,

Argyle R Mackey
Commissioner

Enclosure

were dismissed in 169 cases and in 153 cases the applications for writs of habeas corpus were withdrawn.

amounting to duress.

tuted in 11,445 cases involving violations of immigration laws and 370 cases involving violations of nationality laws. Such prosecutions resulted in a total of 10,622 court convictions during the year, with an aggregate imprisonment of 1,961 years and fines aggregating \$88, 58.

Ninety-two percent of the convictions last year were made under Sections 1 and 2 of the Act of March 4, 1929, for illegal entry. Convictions were made in 298 cases for violation of nationality laws, chiefly under

Section 911 of Title 18, United States Code, for false representation as a citizen of the United States.

The chart which follows shows a sharp rise in the number of convictions following World War II.

Writs of Habeas Corpus.—The institution of habeas corpus actions as a means of delaying deportation presents a continuing problem to the Service. Writs of habeas corpus may be granted in the Federal Courts to determine the legality of the detention of aliens in the custody of immigration officers. In the fiscal year 1950, 101 writs of habeas corpus involving exclusion and 220 writs involving deportation were served by the United States Marshals upon immigration officers for release of aliens in their custody. During the year, a total of 347 cases had been acted upon by the Federal courts, 96 cases involving exclusion and 251 involving deportation. In 25 of the cases, the courts sustained the writ and ordered discharge of the persons from the custody of the Service. The writs of habeas corpus were dismissed in 169 cases and in 153 cases the applications for writs of habeas corpus were withdrawn.

The accumulating tensions in international relations made the traditional function of the Service—that of determining the citizenship and admissibility of each alien applicant—vastly important and ever more complex. Indicative of the magnitude of the task is the astronomical number of more than 90 million alien and citizen entries into the United States at 468 land, air, and seaports during the past fiscal year.

Ninety-seven percent of these entries were of alien and citizen border crossers, who may have made numerous entries across the Canadian and Mexican borders. There were 129,309 border-crossing cards issued and 273,307 cards reissued to aliens and citizens who frequently crossed the borders—to engage in occupations, or as students, or in the ordinary business intercourse.

Aliens and citizens arrived and examined at U. S. ports of entry during
years ended June 30, 1949 and 1950

ENTRIES OVER CANADIAN AND MEXICAN LAND BORDERS YEARS ENDED JUNE 30, 1941 - 1950

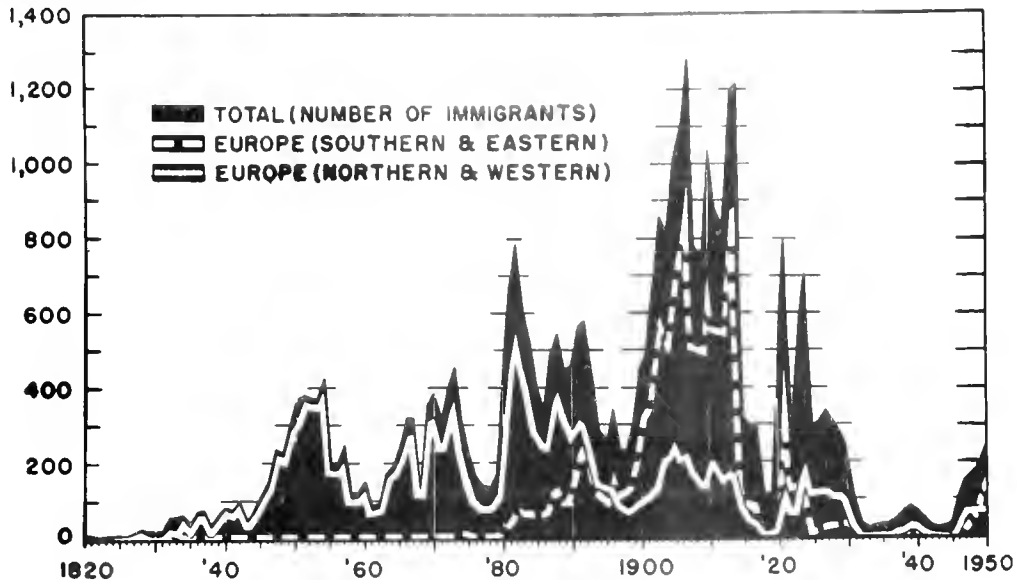

MILLIONS

Crewmen.—Of the 1,630,198 crew members admitted to the United States in 1950, slightly more than half were aliens. Because many aliens who wish to remain here illegally use the seaman route for attempted entry, and because the Service does not have sufficient personnel to inspect all departing vessels and planes, the crew inspections on arrival must be carefully conducted. Last year 30,775 alien crewmen were ordered held on board the vessels on which they arrived, because they were inadmissible to the United States. Records indicate that 2,410 alien crewmen deserted during the year. This is a reduction of 33 percent compared with the previous fiscal year.

IMMIGRATION TO THE UNITED STATES YEARS ENDED JUNE 30, 1820 - 1950

THOUSANDS

Immigrants

Immigrants are potential citizens, so that when aliens are admitted for permanent residence, they are in actuality taking the first step toward citizenship. The 249,187 immigrants admitted represent the largest number in any year since 1929. Thus this past year continued the upsurge in immigration that followed World War II.

The chart below points to the close relationship between the march of events in contemporary international history and immigration. Immigration all but ceased during the depression years, climbed a little in the late 30's largely as a result of Nazi political and religious persecution, dropped again during the war years.

The first waves of immigration that followed the war were swelled by war brides, followed later by the political emigres and other displaced persons who were part of the innumerable migration that swept across Eastern and Central Europe during and since the War.

IMMIGRATION TO THE UNITED STATES
YEARS ENDED JUNE 30, 1925 - 1950

THOUSANDS

Four out of every five immigrants or 197,460 admitted in the fiscal year 1950 were quota immigrants. Of the quota immigrants, five-eighths were displaced persons.

QUOTA IMMIGRANTS ADMITTED
YEARS ENDED JUNE 30, 1925 - 1950

THOUSANDS

Displaced Persons.—The thousands upon thousands of persons uprooted from their homes during the war created one of the most perplexing aftermaths of the war. Under the President's Directive of December 22, 1945, and subsequently under the Displaced Persons Act of 1948, some 200,000 displaced persons have found a permanent abode in this country. There were 124,353 admitted in the fiscal year 1950.

The Displaced Persons Act of 1948, prior to the amendment cited on page 11 of this report, provided for three preferential groups within the quotas. The preferences and the number of persons admitted thereunder are shown below:

Displaced persons admitted under the
Displaced Persons Act of 1948
Years ended June 30, 1949 and 1950

Class	Total	1949	1950
Total number.....	164,401	40,048	124,353
<u>Quota</u>	<u>163,854</u>	<u>39,734</u>	<u>124,120</u>
<u>First preference quota:</u>			
Persons engaged in agricultural pursuits, their wives and children.....	47,983	10,088	37,895
<u>Second preference quota:</u>			
Persons having special skills, their wives and children.....	103,454	23,542	79,912
<u>Third preference quota:</u>			
Persons who are blood relatives of U.S. citizens or resident aliens.....	6,252	4,016	2,236
<u>Nonpreference quota</u>	<u>6,165</u>	<u>2,088</u>	<u>4,077</u>
<u>Nonquota</u>	<u>547</u>	<u>314</u>	<u>233</u>
Displaced orphans.....	503	314	189
Other nonquota.....	44	—	44

For 26 years the quota limitation for all but Western Hemisphere countries has served as a numeric brake on immigration. Under the Displaced Persons Act, however, the brake has been temporarily removed by providing for mortgaging 50 percent of future quotas for those countries where the necessity exists.

The results, as of June 30, 1950, are somewhat startling for a few of the countries with small quotas. For example, 50 percent of Latvia's quota of 236 will be mortgaged through the year 2,124. Estonia's quota of 116 will be only 58 for 118 years, and one-half of Lithuania's quota of 386 has been mortgaged for 90 years.

The Act provided for the admission of eligible displaced orphans in nonquota status. Five hundred and three had been admitted by June 30, 1950.

Other Quota Immigrants—There were 73,340 quota immigrants in the

past year who were not displaced persons. The principal quota nationalities were:

<u>Quota nationality</u>	<u>Number</u>
Great Britain and Northern Ireland.....	17,161
Germany.....	15,936
Ireland.....	6,442
Italy.....	5,382
Austria.....	4,170
France.....	3,117

In the Displaced Persons Act there was a provision that Germans of German ethnic origin should be charged to the German and Austrian quotas. These were Germans who settled in Eastern Europe and who were pushed out by the fortunes of wars. In the table below is shown the country of birth of German ethnic immigrants so charged.

<u>Country of birth</u>	<u>Number</u>
Total.....	<u>8,457</u>
Yugoslavia.....	3,587
Rumania.....	1,397
Poland.....	1,170
Czechoslovakia.....	933
Hungary.....	768
Other countries (includes dependent spouses and children of German ethnics).....	602

Preferences within quotas, as established by the Immigration Act of 1924, as amended, were granted in the following numbers:

<u>Quota immigrants admitted</u>		
<u>Years ended June 30, 1949 and 1950</u>		
	<u>1950</u>	<u>1949</u>
Total number.....	<u>197,460</u>	<u>113,046</u>
<u>First preference quota</u>		
Relatives of citizens.....	6,888	8,548
Skilled agriculturists.....	751	2,093
<u>Second preference quota</u>		
Wives and children of resident aliens.....	4,520	3,738
Nonpreference quota.....	61,181	58,933
Displaced persons admitted under the Displaced Persons Act of 1948.....	124,120	39,734

It is interesting to note that 31 percent of the displaced persons admitted under the quota were granted preference as agriculturists, while only one percent of those admitted under regular immigration laws received such preference.

IMMIGRANT ALIENS ADMITTED
YEARS ENDED JUNE 30, 1940 - 1950

IMMIGRANTS (In Thousands)

Nonquota immigrants.—When Congress limited immigration by means of quotas, it included in the same law provision for certain classes who could be admitted without numerical restriction.

Shown below are the principal class of nonquota immigrants admitted:

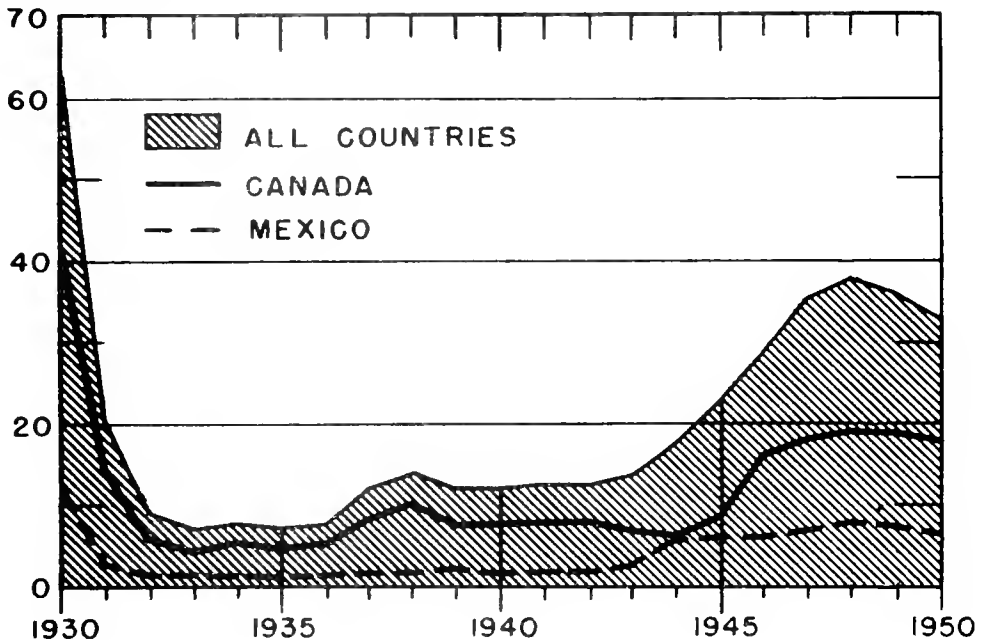

Nonquota immigrants admitted in years
ended June 30, 1949 and 1950

	1950	1949
Total nonquota immigrants admitted.....	51,727	75,271
Husbands of citizens.....	1,459	3,239
Wives of citizens.....	12,291	27,967
Unmarried children of citizens.....	2,525	4,648
Natives of nonquota countries.....	32,790	35,969
Wives and children of natives of nonquota countries.....	448	425
Ministers, their wives and children.....	833	1,233
Professors, their wives and children.....	603	869
Women who had been citizens.....	86	110
Other nonquota classes.....	692	811

The largest single class of nonquota immigrants last year, and in most of the years since 1930, is natives of nonquota countries. Immigrants of this class come from the independent countries of the Western Hemisphere, principally the neighboring countries of Canada and Mexico. The chart below shows the admission of such immigrants for the past 26 years:

NATIVES OF NONQUOTA COUNTRIES, THEIR WIVES, AND MINOR CHILDREN YEARS ENDED JUNE 30, 1930 - 1950

THOUSANDS

The next group in numerical importance consists of the husbands, wives, and children of citizens of the United States. In addition to the provisions of the Immigration Act of 1924, as amended, that gave nonquota status to the immediate relatives of citizens, there have been a number of instances of special legislation.

Following the end of World War II two laws were passed that were designed to ease the problems of members of the armed forces who married or became engaged to nationals of foreign countries. Public Law 271, passed December 28, 1945, facilitated the entry into the United States of alien wives, husbands, and children of members of the armed forces of this country, by waiving visa requirements as well as excluding provisions concerning physical and mental defectives. This law was later amended by Public Law 213, of July 22, 1947, which extended the benefits to spouses of racially ineligible races if they were married to United States citizens before or within 30 days of the passage of the Act.

There are contrasts in the countries of origin that are indicative of the geographic distribution of American soldiers in this global turmoil, as

well as the effects of special legislation. For example:

<u>Country of birth</u>	<u>Numbers of wives of citizens</u>				
	<u>1946</u>	<u>1947</u>	<u>1948</u>	<u>1949</u>	<u>1950</u>
Great Britain & North Ireland.....	27,094	7,160	1,843	914	241
Germany.....	303	701	3,638	10,130	3,798
Italy.....	2,419	5,711	6,385	3,081	2,168
China.....	159	902	3,192	2,143	1,062
Japan.....	4	14	298	445	9
Australia and New Zealand.....	5,375	2,225	852	286	184

WIVES, HUSBANDS, AND MINOR CHILDREN OF UNITED STATES CITIZENS YEARS ENDED JUNE 30, 1925 - 1950

THOUSANDS

The other principal classes of nonquota immigrants are the professional groups—ministers and professors, and their wives and children.

The recent history of such admissions is shown in the two charts below:

MINISTERS, THEIR WIVES AND CHILDREN YEARS ENDED JUNE 30, 1925 - 1950

PROFESSORS, THEIR WIVES AND CHILDREN YEARS ENDED JUNE 30, 1925 - 1950

Nonimmigrants

Nonimmigrants are aliens who enter the United States for temporary periods, or resident aliens returning from a temporary stay abroad. The figures below do not include such special groups as agricultural laborers, border crossers, and crewmen.

Nonimmigrants admitted
in years ended June 30, 1949 and 1950

	<u>1950</u>	<u>1949</u>
Total nonimmigrants admitted	<u>426,837</u>	<u>447,272</u>
Government officials	13,975	13,722
Members of international organizations	5,010	4,723
Temporary visitors for business	67,984	73,338
Temporary visitors for pleasure	219,810	225,745
In transit	68,640	81,615
Returning residents	40,903	36,984
Students	9,744	10,481
Treaty traders	766	632
Other nonimmigrants	5	32

Because quotas are filled and immigrant visas are difficult to obtain, and because this country is engaged in an ideological struggle to maintain the democratic ideals for which this nation stands, the admission of non-immigrants takes on greater significance. It must be clearly determined (1) that each alien seeking temporary admission is in fact and in intent coming for a temporary period and (2) that he does not bring with him ideologies subversive to our form of Government.

For the past four years nonimmigrant arrivals have exceeded, in each year, such arrivals in any single year since the first records of 1908. The second line in the chart following, that for visitors, shows where most of the gain has been, but the number of students, government officials, and transits has increased over the prewar years

NONIMMIGRANT ALIENS ADMITTED TO THE UNITED STATES
YEARS ENDED JUNE 30, 1931 - 1950

THOUSANDS

The principal countries or regions of birth for nonimmigrants in the past year were:

West Indies.....	76,775	France.....	13,922
Canada.....	69,042	Italy.....	10,798
England, Scotland, and		Central America.....	10,752
Wales.....	58,765	Spain.....	10,368
South America.....	30,977	Germany.....	10,242
Mexico.....	26,107		

There were approximately 28,000 students studying in the United States last year; 9,744 were admitted during the year. These students are all enrolled in approved institutions of learning. As of June 30, 1950, the distribution of students by Districts was as follows:

Students in the United States
On June 30, 1950

<u>District</u>	<u>Number</u>
Total	<u>24,939</u>
St. Albans, Vt.	142
Boston, Mass.	2,154
New York, N. Y.	4,290
Philadelphia, Pa.	1,383
Baltimore, Md.	1,283
Miami, Fla.	1,584
Buffalo, N. Y.	1,020
Detroit, Mich.	2,773
Chicago, Ill	2,492
Kansas City, MO	2,335
Seattle, Wash.	1,140
San Francisco, Calif	2,184
San Antonio, Tex	349
El Paso, Tex.	576
Los Angeles, Calif.	1,187
Honolulu, T. H.	57

District Offices report on the number of visitors, transits, and treaty traders in the United States at the end of each month. At the end of June 1950 the following numbers were reported to be in the United States.

Visitors	79,474
Transits	6,787
Treaty traders (admitted since December 7, 1948).	813

Exercise of the Ninth Proviso.—Under the terms of the Ninth Proviso to Section 3 of the Immigration Act of 1917, the Attorney General is permitted in his discretion to admit, for temporary periods, certain persons who otherwise are inadmissible to the United States. The table below shows the number of applications for consideration under the Ninth Proviso, exclusive of Mexican agricultural laborers, finally disposed of during the past four years and the manner of disposition of such applications.

Applications for exercise of Ninth Proviso ^{1/}
 Years ended June 30, 1947 - 1950

Years ended June 30,	Number of applications	Disposition		Number of persons involved
		Admission authorized	Admission denied	
Total.....	3,246	2,712	534	45,159
1947... ..	617	491	126	6,088
1948... ..	628	551	77	6,009
1949... ..	933	784	149	21,146
1950... ..	1,068	886	182	11,916

^{1/} Exclusive of Mexican agricultural laborers.

Most of the Ninth Proviso applications were filed in behalf of aliens excludable as mental or physical defectives, criminals, contract laborers, or illiterates. The applicants usually sought advance exercise of the Ninth Proviso in order to enter the United States as temporary visitors or border crossers, or sought border crossing privileges, for the purpose of receiving medical treatment, to visit relatives, to work, or make purchases. Of the 1,068 applications for exercise of the Ninth Proviso last year, 119 were for permission to import 10,936 unskilled contract laborers for employment in the United States.

Agricultural laborers admitted through exercise of Ninth Proviso.—The Attorney General is authorized, in his discretion, under the terms of the Ninth Proviso to Section 3 of the Immigration Act of 1917, to import unskilled agricultural and industrial laborers who would be subject to exclusion from the United States as contract laborers. Before importation is authorized, a showing is required that there is a need for the labor, that prevailing wage rates in the area of employment will be paid, and that American labor will not be displaced by the aliens imported.

At the beginning of the fiscal year 1950 there were 26,818 agricultural laborers in the United States. During the year 26,219 agricultural laborers were admitted to the United States, chiefly from Mexico and the British West Indies, and 98,381 agricultural laborers departed. An interim agreement was entered into with Mexico in the early spring of 1949 which resulted in a formal agreement which was approved and became effective on August 1, 1949, for the contracting of Mexican agricultural laborers illegally in the United States. The program of contracting illegal entrants reached full swing during last September, when 35,763 Mexican illegal entrants were contracted. Such contracting has tapered off considerably since September, and in June 1950, only 572 agricultural laborers illegally here were recontracted. During the fiscal year 1950, a total of 96,239 Mexican agricultural laborers illegally in the United States were contracted in pursuance to the agreement with Mexico.

The importation of Mexican agricultural laborers ceased at the end of

last November. In December and January only Bahaman agricultural laborers were imported to this country. No laborers were imported during the months of February, March and April. During the months of May and June, a total of 1,076 Bahaman, 680 Jamaican, 27 Canadian, and 10 Mexican laborers were admitted to the United States.

At the end of June the following numbers of agricultural laborers from all countries were employed in the United States:

Agricultural laborers admitted under the 9th Proviso,
by Districts
AS of June 30, 1950

District	Country of last permanent residence							
	Total	Canada	Mexico	Bahamas	Barbados	Honduras	Jamaica	Leeward Islands

Canadian Woodsmen ---The program permitting the importation of skilled Canadian woodsmen under bond to guarantee maintenance of status and departure continued in effect during the year, and the need for the program still exists. However, during this summer domestic labor has become more and more available, and the need for importation decreased accordingly. Also, reduced demand for woods products and accumulated stockpiles curtailed woods operations. At the end of the fiscal year, there were 47 individual permits in effect authorizing the importation of 5,965 woodsmen, as compared with 59 permits covering 8,285 woodsmen the previous year. However, less than half of the number of woodsmen authorized were actually imported and working in the woods at any one time.

Violations of the terms of the permits decreased during the year, probably due to the close policing of the woods camps by the Border Patrol and a better understanding of their responsibilities on the part of the operators.

Petitions for Immigration Visas and Reentry Permits. ---While in most instances the applications for admission to the United States are handled by the State Department, in two instances at least the initial applications were initiated through our Service.

Petitions for immigration visas.—The Immigration Act of 1924 provides that nonquota or preference-quota status may be granted to certain near relatives of citizens of the United States. In order to obtain such status, the United States citizen must file with this Service a petition for the issuance of an immigration visa (Form I-133) accompanied by proof of his citizenship, his relationship to the beneficiary, and other facts. If, after examination, the petition is approved, it is forwarded to the Department of State for transmittal to the appropriate American Consul. During the year just ended, 27,413 new visa petitions were received; of that number 21,556 visa petitions were approved, 285 were rejected, and 64 approvals were revoked.

Reentry permits.—Section 10 of the immigration Act of 1924 provides that resident aliens who have been lawfully admitted for permanent residence who depart for a temporary visit abroad may obtain reentry permits to facilitate their readmission to the United States. The years since the end of the war have shown a steady increase in the number to apply for documents with which to travel outside the United States. The travel to European countries in particular has shown a large increase.

REENTRY PERMITS ISSUED
YEARS ENDED JUNE 30, 1925 - 1950

During the fiscal year of 1950 a total of 63,893 applications for these travel documents were received and of this number 63,724 were approved and issued, and at the end of the year 1,302 applications were pending. During the previous year 51,481 permits were issued.

Extensions of reentry permits were granted in 11,643 cases in 1950 as compared with 9,494 during the previous fiscal year. One hundred two applications for extensions were denied and there were pending at the close of the year 277 applications for extensions.

Emigrants and Nonemigrants

During the fiscal year there were 456,689 aliens (exclusive of border crossers, Mexican agricultural laborers, and crewmen) who departed from the United States. Only 27,598 were emigrants, i.e., aliens who left a permanent residence in the United States for a permanent residence abroad, 48,054 of the nonemigrants were resident aliens who planned to return to the United States after a temporary stay abroad, and 381,037 were aliens who had been admitted as visitors, persons in transit, and others temporarily admitted.

The history of immigration laws has been one of increasing restriction. It is difficult, if not impossible, to enact general laws that in their application do not impose undue hardship on aliens and citizens. In order to ameliorate these situations, there are certain provisions in law and regulation.

Suspension of deportation.—Section 19(c) of the Immigration Act of 1917, as amended, provides that the Attorney General may suspend the deportation of an alien who is deportable under law (otherwise than on charges relating to subversives, criminals, narcotics, immoral persons, and the mentally and physically deficient), if the Attorney General finds (1) that such deportation would result in a serious economic detriment to a citizen or legally resident alien who is the spouse, parent or minor child of the deportable alien, or (2) that such alien was residing continuously in the United States for seven years or more and was residing in this country on July 1, 1948.

In addition to the 249,187 immigrants admitted from abroad during the past fiscal year there were 833 aliens who became legal permanent residents through suspension of deportation under the provisions of Section 19(c) of the Immigration Act of 1917, as amended. Charges to the quotas of the following countries were made for these aliens by the Department of State for the year ended June 30, 1950:

	Total Number	<u>833</u>		
Great Britain	173		U S S R	35
Italy	69		Finland	31
Greece	65		Spain	28
Netherlands	42		France	25
Chinese racia	37		Germany	23
Norway	36		Australia	22
Philippines	36		Other	11

Section 19(c) of the Immigration Act of 1917 requires that the pertinent facts in all cases in which the deportation of an alien is suspended shall be reported to Congress with the reasons for such action. If during the session at which a case is reported or in the next following session Congress approves by concurrent resolution the granting of suspension to the alien, deportation proceedings are thereafter cancelled and the alien is accorded the status of a lawful permanent resident of the United States. If the Congress does not pass such a resolution, the Attorney General is directed to deport the alien in the manner provided by law.

During the fiscal year 1950, 4,452 suspension cases were submitted to Congress, as compared with 4,302 in 1949 and 3,160 in 1948. Since the passage of the Act of June 28, 1940, authorizing suspension of deportation, 32,358 names have been submitted to Congress for approval, or an average of 3,236 a year.

Displaced persons residing in the United States. Section 4 of the Displaced Persons Act of 1948, as amended, provides that eligible Displaced Persons (as defined in that Act, temporarily residing in the United States) may apply to the Attorney General for adjustment of their immigration status to that of permanent residents, provided that they are otherwise admissible to the United States and were lawfully admitted to the United States as nonimmigrants under Section 3, or as students under Section 4(e), of the Immigration Act of 1924.

Displaced Persons filing application for adjustment of their immigration status are required to establish by credible evidence that they have been displaced as a result of events occurring subsequent to the outbreak on September 1, 1939, of World War II. They are further required to establish that they cannot return to their native countries, nor to the countries of last residence or nationality, because of persecution or fear of persecution on account of race, religion or political opinions.

The applications in 491 cases (constituting 48% of the 1,019 cases in which final decision had been entered by the Commissioner by June 30, 1950) were denied because the applicants failed to establish eligibility for adjustment of status in accordance with the requirements of Section 4 of the Act. Principal grounds for denial were that the applicants did not prove "displacement" from the country of birth, last residence, or nationality, that they did not enter lawfully under Section 3 or Section 4(e) of the Immigration Act of 1924, or that they entered the United States subsequent to April 1, 1948, whereas under the Displaced Persons Law prior to

the amendment of June 6, 1950, Public Law 555, eligible applicants were required to enter prior to April 30, 1948. However, the amendment of June 6, 1950 advanced the date of reference from April 30, 1948 to April 30, 1949. Therefore, some of the denials upon reapplication by the Displaced Persons, may presently receive favorable consideration.

Preexamination -- Preexamination is a privilege accorded to certain aliens who are in the United States in a status other than that of permanent residence and who desire to adjust their immigration status by proceeding to Canada to apply to an American consulate in that country for an immigration visa with which to apply to the United States for permanent residence.

If the application for preexamination is approved, the alien is given a hearing to determine his admissibility to the United States. The alien must be admissible to Canada, of good moral character, and have assurance from the American consulate in Canada that an immigration visa can be issued promptly to the alien's family if he is eligible for an immigration visa. He is issued a preexamination board crossing card to facilitate entry into Canada. During the year 1950, 805 new applications for preexamination were submitted by aliens who were not subject to deportation proceedings, 2356 applications for preexamination were approved, and 34 were denied. During the year, the authority for preexamination was invoked in the cases of 38 individuals. In the preceding year 2,087 new applications for preexamination were received.

Exercise of the Seventh Provision -- Aliens returning after a temporary absence to an unexpired duration in the United States of seven consecutive years may be admitted by the Attorney General under the authority contained in the 7th Provision to Section 3 of the Immigration Act of 1917 notwithstanding a ground or grounds of inadmissibility under the Immigration laws. However, it is to be noted that the Internal Security Act of 1950 contains a prohibition that the 7th Provision shall have no application to cases falling within the purview of Section 1 of the Act of October 6, 1948, as amended.

The table which follows shows the number of applications for consideration under the Seventh Provision that have been disposed of during the past four years and the manner of disposition of such applications.

Applications to exercise of Seventh Provision

Years ended June 30	Number of applications	Disposition of applications	
		Admitted	Admitted or denied
Total	1,022	90	5
1950	72	38	34
1949	334	306	28
1948	243	223	25
1947	268	240	28

Most of the applications for Seventh Proviso relief during the past fiscal year arose in deportation or preexamination proceedings of resident aliens who would have been excludable criminals or mental or physical defectives, or illiterates. Practically all of the 138 cases in which favorable action was taken represented persons who, in addition to having the statutory requisite of seven years prior domicile in the United States, had established family ties in this country and had otherwise unblemished records for years past.

Registry of aliens under Section 328(b) of the Nationality Act of 1940.—To obtain a reentry permit, to be naturalized, and for various other reasons, aliens need to have proof of lawful permanent entry into the United States. After the alien's record of entry is verified, a certificate of arrival or other appropriate document is issued by this Service.

An alien may make application to the Commissioner of Immigration and Naturalization for the creation of a record of lawful entry where no record exists of his admission for permanent residence. To be eligible to have a record of registry created, the alien must prove that he is eligible for citizenship, that he entered the United States prior to July 1, 1924, and has resided here continuously since, that he is a person of good moral character, and that he is not subject to deportation. When registry is approved a record is created establishing the alien's admission for permanent residence as of the date of his entry. During the past year 5,544 applications for registry were received, and 3,854 records of registry completed.

Private Bills.—Another means of adjusting status is by private congressional action. Private bills are placed before Congress to relieve hardship and are necessary in individual cases, such as those for Japanese war brides or fiancées of United States citizen servicemen, whose admission into this country was not possible after the expiration of the War Brides and Fiancées Acts. Of the 460 approved by the 81st Congress to date, 131 were for Japanese war brides, and children of G. I.'s—persons whose cases would now be covered by Public Law 717 approved August 19, 1950. In another instance, a private law was passed on August 17, 1949, authorizing the repatriation of a native-born former citizen of the United States who lost citizenship by voting in British elections. The provision in Section 323 of the Nationality Act of 1940, which had authorized the repatriation of such a person, expired on August 6, 1947.

While the enforcement of immigration and nationality laws is always important, enforcement takes on added meaning amidst the pressures and tensions of our contemporary world, and guarding the borders, following through on investigations, and detention and deportation activities become paramount in many phases of Service work.

Border Patrol

Twenty-six years ago when the "Border Patrol" began, its name fitted an organization conceived for the primary purpose of patrolling the land borders. This is still an important work as is shown by the graph below:

MILES PATROLLED BY BORDER PATROL OFFICERS
YEARS ENDED JUNE 30, 1925 - 1950

However, as means of rapid transportation increased this plan of operation decreased in effectiveness. For example, only a decade ago the problem of unlawful entry of Mexican laborers was one confined almost entirely to States bordering on Mexico. Mexican aliens now, however, have been apprehended by the thousands in the North. Small details of our officers in Chicago have apprehended on the streets of that city more than a hundred aliens a week who were unlawfully in the United States. A colony outside Port Huron, Michigan, contains over 800 former residents of Mexico and south Texas. Wherever masses of illegal labor have gained a foothold, there has been a decided migration of local workers. They cannot meet the competition and live by American standards--the American way of life.

It is largely these same Mexican laborers that brought about a year of stupendous accomplishment of 469,581 apprehensions during the year by Border Patrol Officers, although other groups apprehended in much smaller numbers may be much more important in terms of national security. The chart below shows the sharp increase in apprehensions over the past two years.

DEPORTABLE ALIENS APPREHENDED BY BORDER PATROL OFFICERS
YEARS ENDED JUNE 30, 1941 - 1950

It has been necessary for the Border Patrol to give increasing attention to avenues of unlawful entry which, though previously existing, had not been used extensively for many years. As cited elsewhere in this report, hundreds of south and middle Europeans have been found unlawfully in east and midwest United States. Many of them entered on arriving vessels at ports of the eastern seaboard. To close this avenue of illegal entry into the heart of America used by those who not only are law violators, but are also possible manaces to our national security, the border patrol operations have had to be extended to sea as well as land borders.

The 713 smugglers apprehended during the year included every type, from the small operator who brought one alien at a time to the well-knit organizations that have smuggled dozens or even hundreds of aliens by airplane into the United States. The importance of this work, even to the smallest case, is readily apparent when it is realized that a saboteur or atomic spy will more than likely seek this illicit entry by the most obscure and least conspicuous route.

Along with the higher costs of production and inflationary trend in our economy, there has come a tremendous increase in the fees and the incentive for smuggling. Formerly it was a rare and prominent case if the smuggler's price was over a hundred dollars. We have now made apprehensions in a number of cases where the price was a thousand dollars or more.

SMUGGLERS OF ALIENS APPREHENDED BY BORDER PATROL OFFICERS
YEARS ENDED JUNE 30, 1925 - 1950

Never before in the history of the Border Patrol have there been such stupendous accomplishments. Never before has the Border Patrol been called upon to assume greater responsibilities than those brought about by a world political situation which, by the end of the fiscal year, had seen a cold war of world politics change to a shooting war in the Far East.

With new equipment and improved techniques, the Border Patrol will put all its effort behind the task of apprehending this more dangerous type of smuggler. With better radio communications, more airplanes, more personnel and better planning, it is believed the Border Patrol is well able to meet the new challenge of illegal migration.

Investigations

There is hardly a phase of the enforcement and adjudicative operations of the Service that does not require that an investigation be conducted at some stage in the proceedings. Our growing security consciousness has resulted in progressive increase in the number of investigations required in all avenues of Service activity.

Until recent years, the investigative responsibilities of the Service were performed by Immigrant Inspectors, Naturalization Examiners and other officers as incidental to their normal duties. The impact of World War II made it apparent that specialization was required, and investigations were gradually channelled to a group of carefully selected and specially trained officers devoting their full time to investigative pursuits.

Special emphasis was given during the past year to the problems peculiar to the times, such as subversive aliens, smugglers and related activities, outlined in the introduction to this report.^{1/} In addition, of course, due attention was given to investigations required, both in normal times and times of stress, in the execution of the laws generally committed to this Service for administration and enforcement.

Even in the field of usual operations the stress of external events created its own peculiar problems. For example, during the past few years, numerous aliens were brought to the United States to testify in the various treason trials arising out of the recent war. Careful follow-up had to be maintained to see that these witnesses departed once the trials were concluded. Private bills required a careful investigation by the Service. Various aliens enjoying special status in this country by reason of official employment by a foreign government or by the United Nations terminated their employment, thereby necessitating inquiry to see that they departed. Following are some of the attendant problems:

(1) False documents --The past year has yielded evidence of the attempted use of false passports and other documents in trying to gain entry into the United States. In some instances, the documents have been forged or altered, in others, foreign passports have been stolen in blank and trafficked commercially. Some aliens have also attempted entry in the guise of American citizens by presenting false or illegally created birth certificates.

One of the criminal cases was that of John Runningwater Eagle, who was successfully prosecuted under 18 U.S.C. 911 and 371, for assisting, inducing, and procuring aliens to falsely claim United States citizenship. He received total sentences of fourteen years imprisonment. This defendant, who was a citizen and a notary public, followed the practice of advertising that he would assist Mexican aliens, here illegally, to adjust their immigration status so that they might remain here permanently. From such aliens who would engage his services, he would collect a fee ranging between \$50.00 and \$125.00, and would then create a delayed birth record showing the birth of the alien in the United States. This would be accomplished by means of fraudulent affidavits showing birth in Texas, the alien's true name, true

^{1/} See pages 3 to 6.

date of birth and true names of parents, the only false item being the alien's place of birth. Our investigation indicated that this single notary public had created such fraudulent birth records in more than 100 cases. This practice is unfortunately too common.

Again, there are indications of organized criminal rings trafficking in false documents. The use of such birth certificates by alien Chinese in securing documentation as American citizens has also been disclosed by investigation. The evidence has been presented to the Federal Grand Jury at San Francisco, and a conspiracy indictment was recently returned against some of the participants, including a prominent attorney.

(2) Frauds by displaced persons. -- Investigations conducted both in the United States and abroad during the past year indicate that a number of aliens admitted or applying for admission under the Displaced Persons Act of 1948 have procured their status as eligible displaced persons by fraud or deceit. While the statistics for the past fiscal year are incomplete, during that period at least 653 investigations of possible frauds on the part of displaced persons were initiated.

Another facet of the problems relating to displaced persons is that arising from the fact that, once admitted to this country, many displaced persons have promptly left the employment assured them as a prerequisite to the issuance of their visas. Section 6 of the Displaced Persons Act of 1948, as amended on June 16, 1950, now requires applicants of this sort to execute a signed statement accepting and agreeing in good faith to abide by the terms of the employment. Misrepresentation in this regard is made a basis for deportation, under the amended act. Violations of this section of the act will, no doubt, add to the numbers of investigations during the fiscal year 1951.

(3) Lookouts. -- The Investigation Section in the Central Office is the clearing house for information of all sorts directly affecting the enforcement operations of the Service. Through this focal point passes all manner of intelligence, which must be analyzed, classified and disseminated to the Field in such form as to be readily available at all times for quick reference. The bulk of this information is sent out in the form of lookout cards which can be uniformly maintained in all Field Offices.

In September 1949 a revised system of issuing lookouts, to cope with the rapidly increasing volume of information requiring dissemination, was inaugurated. This new system has proved highly successful in operation and has contributed greatly in preventing the entry or continued residence of undesirable aliens. During the past year, 2,616 lookouts were distributed to the Field, as compared with 2,095 during the preceding year.

The table below shows the principal types of investigations that figured prominently in the work of the fiscal year.

Investigations
Year ended June 30, 1950

Type of case	Number of investigations
Total	238,064
Violation of general immigration laws	107,500
Violation of status of visitors, students, transits and treaty merchants:	
Remained longer than authorized	23,685
Other violation of status	12,479
Suspension of deportation (under Sec. 19(c), Immigration Act of February 5, 1917, as amended)	15,004
Violation of Alien Registration Act	9,823
Eligibility of displaced persons applying for adjustment of status under Sec. 4, Displaced Persons Act of 1948, as amended	4,239
Violation of parole	2,935
Subversive aliens (under Act of October 16, 1918, as amended)	2,323
Naturalization cases:	
Revocation of naturalization	1,279
Petitioners for naturalization	7,539
Other naturalization cases	8,701
Miscellaneous cases	42,557

(4) Cooperation with other agencies --Close liaison is maintained with other agencies possessing information which may be relevant to Service responsibilities. These relationships have proven to be mutually advantageous, and the interchange of information has not only made more effective the enforcement work of the Service, but has also contributed substantially to the over-all effectiveness of the Government as a whole. Extensive security measures were inaugurated during the past year to maintain inviolate such data as were furnished under the seal of confidence.

Detentions

The detention policy of the Immigration and Naturalization Service has two major objectives: First, to discharge its functions in such manner as to create in the alien proper respect for our Government, its officials and property, and, second, to enforce a minimum of restraint, consistent with security and discipline, in order that upon release from custody he may harbor no feelings of hostility or have experienced any adverse effects from his detention.

From the time a temporarily inadmissible alien, an excluded alien, or an alien under warrant of deportation is placed in the custody of the Service until his departure he is provided with clean, sanitary living quarters, an adequate, nutritious and well-balanced diet, medical care by the Public Health Service, and facilities for religious services, recreation, and education. Although aliens are not required to perform any labor during detention, good morale is indicated by the fact that there is always

more voluntary help for the limited type of maintenance work available than we can utilize.

(1) Aliens detained.—During the fiscal year 1950, 97,710 aliens were detained in Service-operated facilities at Ellis Island, Boston, Seattle, San Francisco, Los Angeles, San Diego, El Centro, and Honolulu, and in more than 300 contractual jails throughout the United States. There was a decrease of about five percent in the number of aliens detained in comparison with the number in 1949.

Total aliens detained	years ended June 30	
	1950	1949
Total.....	97,710	102,523
In Service-operated facilities.....	38,515	49,261
In Non-Service-operated facilities.....	59,195	53,262

As a result of continued efforts in expediting the processing of cases, the issuance of travel documents, arranging prompt deportations by steamship and airplane—whichever is available and most economical to the Government—and the release of aliens on bond or parol pending final determination of cases, the Service was able to reduce the total number of days detention provided, as indicated by the chart which follows, until the last quarter of 1950. At that time, the effect of the new Administrative Procedure Act upon this record is reflected in the sudden up-surge in days detention provided, almost reaching the high point of July 1949.

DAYS DETENTION IN SERVICE AND NON-SERVICE OPERATED FACILITIES
YEAR ENDED JUNE 30, 1950

Likewise, there was also a decrease in the average number of days detention per person for the first nine months of the past year. It will be noted however that the size of the decrease was reduced by the application of the Administrative Procedure Act, which delayed the release of many aliens from detention from April through June.

Average days detention

	<u>Years ended June 30</u>	
	<u>1950</u>	<u>1949</u>
All facilities.....	7.50	6.87
In-Service -operated facilities.....	9.98	10.64
In Non-Service-operated facilities.....	5.20	4.43

(2) Economies effected.—Following a special survey of all Service-operated detention facilities in the interest of efficiency and economy, the El Centro facility in Southern California, which is located 110 miles east of San Diego, was placed upon a curtailed basis as of January 15, 1950. This was made possible as a result of using the voluntary departure procedure rather than holding Mexican aliens for deportation. The Camp Elliott facility, because of its favorable location 11 miles west of San Diego and its large capacity, as well as its proximity to the United States District Court in San Diego, has been expanded to include the detention of aliens apprehended in the El Centro area. The Seattle detention quarters were

UNIT FOOD COSTS PER PERSON - PER DAY
CENTS

also placed upon a curtailed basis as of February 1, 1950, due to the small number of arriving passengers from the Orient. Arrangements were made to transfer temporarily inadmissible aliens to our San Francisco facility and to detain aliens apprehended under warrants of arrest in the Seattle area in local jails. By curtailing these two facilities annual savings of more than \$100,000 will be realized until conditions warrant a return to maximum use.

Substantial savings during the past year have been effected with respect to food. Comparison of food costs is shown in the accompanying chart.

As the Bureau of Labor Statistics index shows, increasing food costs during the last half of the year. It is apparent the coordination of all phases of the detention operation under one supervisory officer in the Central Office, and the inspection of detention facilities for the purpose of supplementing Central Office regulations with on the spot instructions to field operating personnel, have been extremely effective.

More than a million and one half meals were served at Ellis Island, San Francisco, Los Angeles, El Centro, and Camp Elliott detention facilities during the last year at an average cost of approximately 7 cents each. Meals are carefully planned on a basis of nutritive value and it is a matter of satisfaction to know that our uniform daily ration food scale meets the required standard dietary allowances of the Food and Nutrition Board of the National Research Council.

(3) Non Service operated facilities -- New procedures established as of July 1, 1949, in connection with the joint contracts executed by the Bureau of Prisons and the Immigration and Naturalization Service for the care and maintenance of aliens and prisoners with city, county, and State jails, have worked satisfactorily during the first year of operation. Numerous overlapping inspection, contractual, and clerical functions have been eliminated. Inspection reports on file in the Washington office of the Bureau of Prisons relative to these contractual jails provide immediate factual data whenever required.

Alien Parole

There has been a steady increase in the number of transactions involving persons under deportation proceedings who are released under authorization of 8 CFR 150.6, pending final disposition of cases. These include: (1) a substantial number whose deportation cannot be effected due to inability of the Service to procure travel documents, (2) persons released pending hearing or decision or result of appeal, (3) those for whom transportation arrangements could not be immediately completed, (4) those with private bills pending. Also included are persons who stand excluded from the United States and who are paroled to permit the adjustment of immigration status to defend criminal prosecution, to testify in criminal cases for the Government, to apply for registry and similar circumstances where the case is exceptionally meritorious and immediate deportation could be inhumane. In exclusion cases therefore, it is an administrative remedy usually for the benefit of the alien. In deportation cases the benefit is

to the Government, in that the expense of detention is eliminated and the expense of parole supervision is nominal.

The average number of persons under parole supervision per month was 11,689, with a low of 9,145 during August 1949, and a peak of 12,395 during March 1950. There was an average of 947 placed on parole per month, while 801 per month were removed from parole either by return to detention for violation of parole or by deportation or other closing action. During April a peak of 2,491 were removed from parole. The effect of the Sung decision is reflected in the increase in the number on parole in March 1950 and the radical increase in the number removed from parole during April 1950, a large number of the latter being persons who were granted voluntary departure under the privilege of 8 CFR 150.3.

Due to the increasing number of countries to which deportation cannot be effected due to inability to secure travel documents, the number of persons placed on parole will continue to increase, because, except in the cases of those waiting hearing or decision, removal from parole can only be effected by death, private bills, or adjustment of status under the provisions of Section 19(c) of the Act of 1917, as amended June 30, 1948, or other remedial legislation.

Deportations and Voluntary Departures

The total deportations and voluntary departures reached the astounding

DEPORTATIONS AND VOLUNTARY DEPARTURES
YEARS ENDED JUNE 30, 1944 - 1950

figure of 579,105. Each year for the past four or five, we have hoped the peak has been reached, but this year's figure practically doubled that of last year, and was almost 5 times as great as the number deported and permitted to depart voluntarily in 1944.

(1) Deportations.—Only 6,628 of these persons were deported. This is just about one third of the number deported in the fiscal years 1948 and 1949. There are a number of reasons for the drastically reduced figure.

(a) The illegal entry of Mexican laborers was so tremendous in 1949 that the Service was forced to devote more of its resources to the speedy removal of these aliens under voluntary departure processes with less attention being given to more lengthy formal deportation proceedings. In order that a uniform policy might be followed in the three Mexican Border Districts, instructions were issued in May 1949 to the effect that except for Mexican aliens of the criminal and immoral classes formal deportation proceedings should be limited to those who had previously been granted four voluntary departures. The results have been a sharp decline in the number of formal deportations, and a concurrent increase in the number of deportable aliens required to depart under voluntary departure processes. (b) In addition to the land border practice of encouraging departures, another factor in the decrease in deportations is the liberalized provision, effective July 1, 1949, of Section 19(c) of the Act of 1937, authorizing the suspension of deportation on the basis of economic detriment to dependents or of meeting specified character and residence requirements. (c) There was also an increase in stays of deportation, usually granted for such reasons as pending applications for pardons, but during this fiscal year augmented by the increased number of private bills introduced into the Congress to legalize the presence in the United States of persons who have been found deportable. (d) And finally, the effect of the Sung decision was to immediately cut off numerous deportations until rehearings could be held and the deportation procedure repeated.

In the table which follows, the countries to which aliens were deported are shown for 1949 and 1950.

Aliens deported from the United States by country
or region to which deported
Years ended June 30, 1949 and 1950

Country or region to which deported	1949	1950
All countries	6,628	20,040
Europe	947	983
Asia	244	225
Canada	737	869
Mexico	3,319	6,903
West Indies	722	346
Central America	44	152
South America	60	49
Africa	47	39
Other countries	308	374

It will be noted that the proportionate number of Mexican nationals deported is considerably lower than last year, due no doubt to the procedure referred to in item (1) above.

Causes for deportation again reflect the policy of using voluntary departure procedure as an expedient way to rid the country of those who entered without inspection

Miscellaneous.....	108	148

(2) Travel documents for deportees.—One of the discouraging factors in the deportation program is the difficulty encountered in obtaining travel documents for deportees. Before a warrant of deportation can be executed, a travel document must be obtainable from the country to which the alien is ordered deported. The closing of consular offices, stricter interpretation of regulations by some consular officers, and changes in territorial jurisdiction so that consuls in one or more countries refuse to accept the alien as a deportee are some of the reasons why it is difficult to obtain travel documents. When travel documents cannot be obtained from embassies or consulates by this Service the cases are referred to the Department of State. That Department, however, does not request travel documents for countries with which the United States does not have diplomatic relations.

The table which follows shows the number of cases in which the Field Officers were unable to obtain travel documents locally, and applications were made to embassies and through the Department of State

Cases pending July 1, 1949	318
Cases received.	<u>240</u>

After local consuls had refused to issue travel documents, authorizations were secured in.....	52 cases
Reports from the Department of State and other agencies that travel documents would not be issued were received in.....	129 cases
Passports no longer required, as action was discontinued in.....	53 cases
Cases pending June 30, 1950.....	324

In addition to the negotiations conducted with the State Department and the embassies, the Service negotiated with the Allied High Commission for entry into Germany of persons under exclusion, expulsion and removal orders. During the fiscal year authorizations were received from the Allied High Commission for entry into Germany of 26 displaced persons under exclusion order—one displaced person under expulsion order, and 121 others under expulsion order. There were 11 authorizations for transit of deportees through Germany enroute to Austria and Czechoslovakia. Authorization for entry into Germany was denied in 11 cases, of non-Germans who did not meet the qualifications of the Commission for acceptance into Germany as deportees. Entry into Germany as deportees was also refused in the cases of 66 insane persons because no suitable facilities for institutionalization have been restored.

Close co-operation has been accorded by the Allied High Commission, as indicated by the fact that the Commission has reversed previous refusals in every instance in which the Service felt that there was sufficient basis on which to re-present the case. Negotiations were completed for acceptance into the Western zones of Germany of persons of German descent who originated in the former Free City of Danzig or that part of Germany which is now under Polish administration.

The close liaison which has been maintained with embassies and legations of other countries has resulted, in some instances, in improved procedures which expedite the issuance of travel documents. The British Embassy several years ago authorized the Consulate at New York to accept applications for travel documents for deportees of British nationality where no documentary evidence was available. In recent months that authorization has been broadened to include the principal consulates.

(3) Transportation arrangements for deportation of aliens.—Transportation of aliens often has two aspects. (1) to get the alien to the port from which he starts for the country to which he is to be deported, and (2) transportation to the country of deportation from the port.

Within continental United States there were 152 deportation parties authorized, carrying 1,148 aliens by air. As heretofore, the flights were

coordinated to avoid excessive travel of Security Officers and to avoid excessive detentions. The use of planes of non-scheduled carriers, which has effected very considerable savings by decreased man-days of detention and in cost of transportation and meals per alien and in per diem expense and man-hours of escort officers, continued during fiscal year 1950.

There was increasing difficulty in the procurement of water transportation and of documents and escort for transit through countries outside continental United States.

Procurement of transportation on steamships for deportees is becoming particularly difficult, apparently because of insufficient passenger-carrying shipping to meet present commercial demands. The usual tourist season scarcity of space to the Scandinavian countries now appears general as to all countries. Most of the deportations to Australia during the fiscal year involved the securing of reservations two to three months in advance and involved prolonged detentions in several cases. Apparently the situation is becoming worse rather than better.

The cost of air transportation has precluded overseas deportations by the regular airlines, except under unusual circumstances. The use of non-scheduled carriers under contract is practicable only for group movements. During the year, two such flights totaling 78 aliens were operated to Pakistan and Indonesia. There was but one mass movement by steamship, a party of 58 deportees to Pakistan. Deportations to China proper have practically ceased, the last group having been deported through Hong Kong to the Cantonese area at the close of the fiscal year 1949. The British Crown Colony of Hong Kong, early in 1950, decreed that they would accept as deportees only bonafide residents of Hong Kong. The same situation exists as to Formosa.

Deportations which require transit through other countries often necessitate the service of an escort, particularly in the cases of physical or mental incompetents. This usually is arranged through a steamship company and included in their billing. However, through the Permit Office of the Allied High Commission, arrangements have been made for the German authorities to provide escort through Germany to several bordering countries, and it is anticipated that there will be an increase during fiscal year 1951 of deportations to those countries, particularly of incompetents. It is anticipated that negotiations will be completed early in the fiscal year for similar deportations via Trieste.

It is appropriate at this time to mention the hearty cooperation of the Visa Division of the Department of State, and the Permit Office for Germany of the Allied High Commission in arranging for trans-shipment and transit through other countries in instances where direct transportation is not available. The Office of Chief of Transportation of Troop Movement Division of the military establishment, and the International Refugee Organization have cooperated in arranging for accommodations on vessels operated by or for those agencies.

(4) Unexecuted warrants of deportation.--In contrast to the 6,990

unexecuted warrants of deportation pending at the beginning of the fiscal year, there were 5,379 pending on June 30, 1950, unexecuted, except as to the first group, for reasons beyond the control of the Service:

Deferred for reconsideration or stay.....	877
Deferred account private bills.....	173
Awaiting travel documents.....	376
Awaiting transportation.....	218
Serving sentence.	
Travel document obtainable.....	681
Travel document unavailable.....	340
In armed forces.....	3
In hospital or asylum:	
Waiting travel document or transportation.....	100
Travel document obtainable, not able to travel.....	116
Travel document not obtainable.....	256
Travel document not available.	
At large.....	1,342
Whereabouts unknown.....	607
Travel document obtainable, whereabouts unknown.....	290

The substantial decrease in the number of unexecuted warrants of deportation is due largely to the effect of the Sung decision of February 20, 1950, which necessitated the invalidation of many warrants of deportation. The majority of these will result in the reissuance of warrants of deportation after new hearings.

(5) Destitute aliens removed.—Eighty-five aliens were removed from the United States under Section 23 of the Immigration Act of 1917, as amended by the Act of May 14, 1939, which provides for the voluntary removal of destitute aliens who applied for return to their native lands at Government expense. Aliens removed under the provisions of this Act became ineligible for readmission except upon approval of the Secretary of State and the Attorney General.

(6) Voluntary departures.—During the past fiscal year 572,477 aliens who had been adjudged deportable were permitted to depart at their own expense. In this latter group were those found to be deportable on other than criminal, moral, or subversive grounds, or because of mental or physical defects. Such a procedure is advantageous to the alien since he is not prevented from applying immediately for readmission if the basis for his deportable status includes no element which might disqualify him for readmission. It is also advantageous to the Service as it results in a saving of deportation expense.

Included among those who were permitted to depart voluntarily were 12,628 who departed after the issuance of warrants of arrest. There were 11,939 in this category in the fiscal year 1949.

The comparatively slight increase in the number who departed at their own expense after the issuance of a warrant of deportation appears to be solely an increased desire on the part of the aliens to avoid return to the

countries to which ordered deported or, to a lesser degree, to avoid the stigma of arriving abroad as a deportee. Under the regulations, the departure executes the warrant of deportation.

Of the total voluntary departures 560,198, or 98 percent, were from the three Southwestern Districts with headquarters at San Antonio and El Paso, Texas, and Los Angeles, California. They were principally departures of Mexican nationals.

The number of cases which have been disposed of by permitting reshipment foreign as seamen will probably decrease, due to new regulations prohibiting the shipping on American subsidy vessels of non-declarant alien seamen and the difficulty—often six months or more—in arranging for departures on other vessels.

Alien enemies --The alien enemy program, insofar as it relates to World War II, may be said to be completed. The remaining cases are:

There are 25 Germans and one Japanese awaiting outcome of court actions, eight Germans awaiting further administrative action, two Germans from Latin-America for whom departure is being arranged, and 290 Peruvian Japanese. Recent developments indicate a change of attitude on the part of the Peruvian Government, which may lead to the return of a considerable number of Peruvian Japanese.

The Japanese who renounced their United States citizenship under Section 401(i) of the Nationality Act of 1940, as amended, are still at large, having been released by order of the United States District Court for the Northern District of California, on September 8, '47.

Exclusions. --There were 5,256 aliens excluded from the United States during the year. Aliens who arrive at ports of entry seeking admission to the United States may be excluded if they fail to qualify under the immigration laws of the United States. In most instances aliens held for exclusion are given a hearing before a three-member Board of Special Inquiry. From an order of exclusion by the Board, an appeal lies to the Commissioner except in certain instances when the Public Health Officer certifies an alien to be inadmissible. Another type of exclusion where there is no appeal is discussed in the introductory pages, in the section on subversives.

To avoid prolonged detentions at ports of entry into the United States pending determination of admissibility, a force of primary inspectors has been stationed in Europe to make immigration inspections of displaced persons to be admitted. This preexamination procedure has involved large numbers of appeal cases out of the more than 150 thousand cases examined. There were 92 excluded before embarking at European ports.

Of the 5,256 aliens excluded, 1,685 were seeking admission at the land borders for less than 30 days, while 3,571 were excluded at seaports or land border ports when seeking entry for more than 30 days.

Aliens excluded from the United States, by cause

¹/ Aliens seeking admission at land borders for less than 30 days

In all its varied activities of enforcement, the Service has kept in proper perspective the important part played by it in the naturalization process. While the exclusive jurisdiction to naturalize aliens is conferred on the courts, the whole process, including the final hearing and recommendation, is the responsibility of this Service. In such times as the present, the protection of society requires that each alien presented for naturalization be a person in whose case there is no shadow of a doubt as to his belief in our form of Government through democratic means. For citizenship once granted is difficult to revoke.

Declarations of intention.—Generally, the first step in the naturalization process is the filing of a declaration of intention. Past records indicate that wars throughout the world stimulate an appreciation of and a desire for United States citizenship in those who are resident aliens. There was evidence of the "climate of war" in the increase in declarations in the past year. Applications for certificates of arrival and preliminary forms for declarations of intention were received in 1950 from 117,435 aliens, an increase of 36 percent over the number received in 1949. There were 93,527 declarations of intention filed; this, too, is an increase of 44 percent over last year. Possibly the principal group to file declarations are the displaced persons who make up such a large part of the present immigration. War brides—the other large group of recent immigrants—are not required to file declarations of intention.

Petitions filed.—There were 66,038 petitions filed during the year. Included in this number were many who sought expeditious naturalization under Section 312 of the Nationality Act of 1940. This section relates to alien spouses of United States citizens who are employed abroad in the service of the United States Government or who are employed by American institutions of research or by American firms engaged in foreign trade and commerce.

DECLARATIONS OF INTENTION FILED
AND PERSONS NATURALIZED
YEARS ENDED JUNE 30, 1946 - 1950

THOUSANDS

Inasmuch as the Department of the Army permitted the wives and families of many of the men stationed abroad in areas of occupation to accompany their husbands, a large number of petitions for naturalization had been filed wherein the petitioners claimed the benefits of this Section.

The Service has adopted the view that a member of the United States Armed Forces regularly stationed abroad is in the employ of the United States Government as contemplated by Section 312.

Petitions granted.—There were 66,346 petitions granted during the past fiscal year. Thus, the number of persons naturalized continued to remain at a level that has been maintained for the past several years following the peak years of the World War II when in the five years from July 1, 1940, through June 30, 1945, there were a million and a half naturalizations, or an average per year of 300,000.

Reasons for the reduction in numbers of persons naturalized are several: (1) Immigration was very low during the depression years of the 30's and during World War II; (2) the great numbers of persons naturalized during the war reduced the alien population so that there were not many persons left to be naturalized; and (3) of those aliens eligible to be naturalized, many who entered in the peak periods of immigration—1900-1925—were now in the older age groups and could not readily meet the educational requirements for naturalization. Of interest in the trend of the past few years is the increase in the number of "wives of citizens" naturalized, and the decrease in the number of members of the armed forces naturalized. The chart and table which follow show the principal groups for the past four years.

ALIENS NATURALIZED IN THE UNITED STATES BY STATUTORY PROVISIONS

The impulses that make immigrants choose to become naturalized citizens are many and varied; the economic advantage of citizenship as in time of war is a strong factor. People from countries with similar political traditions and the same language can be more readily assimilated than those with a different political ideology. On the other hand, those who are political and religious refugees wish to become citizens as quickly as possible. This has been demonstrated by the speed with which the displaced persons are filing declarations of intention.

The table which follows shows the principal countries of former allegiance of persons naturalized.

<u>Former nationality</u>	<u>Years ended June 30</u>

Not included with British

Effective February 7, 1950, new regulations (8 CFR 373) were promulgated as the result of several naturalization decisions. The purpose of which was to define clearly the rights of the petitioners for naturalization when appealing before officers of the Service for preliminary hearings upon their petitions, and to improve the naturalization records. One of the outstanding features of the new regulations permits an applicant to be represented at the hearing by an attorney or a person representing a reputable religious, charitable, or social service organization. Verbatim records of the hearing are to be made where the complexity of the issues and evidence justify such course. The applicant may submit briefs on the issues involved.

If the recommendation of the Service is for denial of the petition for naturalization, or if it is a grant case in which the facts are to be presented to the court, the Hearing Office is required to submit to the Court at the final hearing a memorandum containing a summary of the evidence, findings of fact, conclusions of law, and a recommendation as to the final disposition of the petition. A copy of this memorandum is required to be served on the applicant.

Naturalization petitions denied. There were 2,276 petitions for naturalization denied by the courts. Included in this number were 537 cases denied for want of prosecution. In most of these cases, however, the petitioner for naturalization failed to prosecute the petition after notice that the petition would be recommended for denial on the merits of the case. The petitioner failed to establish good moral character in 39 cases. In 5 cases he failed to establish sufficient knowledge and understanding of the principles of the Constitution.

The record discloses that only 40 petitions for naturalization were denied on the ground that the petitioner had failed to establish attachment to the principles of the Constitution of the United States and favorable disposition to the good order and happiness of the United States. The fact that this figure is much lower than the corresponding figure for the previous years is indicative of the changing attitude of courts in the case of alien enemies, as to whom most of the adverse information referred to activities prior to 1942, the courts have held that even when such activities

were within the statutory period, the petitioners had shown a change in their feelings toward the United States and thereby established their attachment and favorable disposition toward the United States. One reason for this lenient attitude is that the available witnesses who previously testified against the petitioners and who refused to recommend them for citizenship have now changed their recommendation or have failed to remember any specific actions of the petitioners which indicated a lack of attachment to the United States. That the Service has been slower to change its attitude toward the actions of the petitioners during the statutory period is evidenced by the fact that during the year 129 petitioners for naturalization were admitted to citizenship over the objection of this Service. A large percentage of that number involved cases in which there was a question as to the petitioner's loyalty to the United States.

Naturalizations revoked.—Of the 415 judgments of naturalization revoked in the fiscal year 1950, 392 were cases in which the Foreign Service of the Department of State initiated action because naturalized citizens became residents of foreign states within five years of naturalization. Other causes for revocation are shown below.

Certificates of naturalization revoked, by
grounds for revocation
Years ended June 30, 1950

Grounds	Number
Total.....	<u>415</u>
Established permanent residence abroad within five years after naturalization.....	392
Failed to meet residence requirements (false allegations).....	5
Bad moral character (fraud involved).....	5
Misrepresentations and concealments relating to marital and family status	3
Bad moral character (no fraud involved).....	2
Dishonorable discharge following naturalization based on military service during World War II.....	6
Other grounds.....	2

Loss of nationality.—In addition to those persons whose United States citizenship was revoked, there were 5,792 persons who expatriated themselves by affirmative action. Most of the certificates of loss of nationality were received from American consuls of the Department of State. The various ways of losing nationality, which are stipulated in Chapter IV of the Nationality Act of 1940 and in previous acts, and the numbers of persons are shown in the following table.

Persons expatriated, by grounds for expatriation
Year ended June 30, 1950

Grounds for expatriation	Number of persons
Total	5,791
Voting in a foreign political election or plebiscite	1,693
Residence of a naturalized national in a foreign state (Sec. 404, Nationality Act of 1940)	1,424
Naturalization in a foreign state	1,096
Entering or serving in the armed forces of a foreign state	72
Taking an oath of allegiance in a foreign state	51
Accepting or performing duties under a foreign state	163
Renunciation of nationality abroad	49
Departing from or remaining away from the United States to avoid training and service in the land or naval forces	109
Desertion from the armed forces	4
Other grounds	64

Special certificates of naturalization.--Over 1,300 special certificates of naturalization were issued during the year. The main reason for this large number seems to lie in the fact that many United States citizens, now, are prosecuting claims for property damages incurred during World War II to property owned abroad. The special certificates are needed to obtain recognition of United States citizenship by the foreign governments concerned. Another indication of world conditions is noted in the fact that 296 applications for the benefits of Section 307(b) or Section 308 of the Nationality Act of 1940 were considered. These are applications submitted by aliens who, because of employment by American organizations, are required to reside abroad for a period of one year or more and who wish to maintain the continuity of their residence in the United States for naturalization purposes.

Citizenship acquired by resumption or repatriation -- Statutory authority exists for the re-acquisition of citizenship by persons who lost United States citizenship by serving in a foreign allied army during World War I or World War II, and by women who lost citizenship through marriage to aliens.

The number of former citizens who received certificates of citizenship under such conditions is shown in the table which follows:

	Years ended	
	<u>June 30</u>	
	<u>1950</u>	<u>1949</u>
Total number.	1,219	2,116
Persons who lost citizenship by serving in the armed forces of allies of the United States, and who were repatriated under Sec. 323, Nationality Act of 1940.	276	899
Native-born women who lost citizenship through marriage to aliens and who were repatriated under the Act of June 25, 1936, as amended.	773	1,040
Native-born women who lost citizenship through marriage to aliens and whose marriages terminated, and who were repatriated under Sec. 317(b) of the Nationality Act of 1940.	170	177

Section 323 of the Nationality Act of 1940 specifically authorizes repatriation after service in a foreign, allied army. In addition, Section 317(c) of the Nationality Act provides an expeditious means for the naturalization of former citizens of the United States who were expatriated pursuant to Section 401(c) of the Nationality Act of 1940 by reason of service in a foreign army. Since Section 401(c) does **not** distinguish between service in an allied army and in the army of an enemy country, it permits persons who served in an enemy army during the recent war to claim the benefits of Section 317(c). In such cases, many questions arise concerning attachment to the Constitution of the United States and favorable disposition to the good order and happiness of the United States. Therefore, most of such cases are reviewed by the Central Office before they are presented to the courts for final hearing. Citizenship was not conferred upon any applicant under this Section during the year.

Derivative certificates.—During the past year, 19,078 persons filed applications for certificates of derivative citizenship, claiming to have derived citizenship at some prior time through the naturalization of a parent or husband. Over this period, 16,502 certificates of derivative citizenship were completed.

In addition, certificates of citizenship were issued to 4,320 persons by reason of their birth abroad to citizen parents.

Citizenship education.—The citizenship education program of the Service has been in continuous operation since 1917, having first been authorized by the Immigration Act of that year and further strengthened by the Nationality Act of 1940. The program seeks to aid naturalization candidates in preparing to assume their duties and responsibilities as citizens of the United States, by furnishing—through the public school systems—copies of the Federal Textbook on Citizenship to be used in classroom study. A clear understanding of these responsibilities cannot be too strongly emphasized in view of present-day political trends. National unity of purpose can be more readily achieved when our various groups of peoples

fully appreciate the ideals upon which our Government was founded and are willing to assume the duties which they will incur, as citizens, in perpetuating our way of life.

It is well to examine the progress which has been made over the fiscal year ended June 30, 1950. Details of the principal phases of the work follow:

Citizenship textbooks for naturalization applicants
distributed to the public schools
Years ended June 30, 1944 - 1950

1944 — 294,939	1948 — 149,600
1945 — 259,039	1949 — 145,528
1946 — 179,694	1950 — 190,038
1947 — 190,354	

Names of newly-arrived immigrants

Transmitted to the Field Offices by the Central Office.....	181,311

text-books are requisitioned, and may be regarded as reasonably complete

CITIZENSHIP TEXT BOOKS FOR NATURALIZATION APPLICANTS DISTRIBUTED TO PUBLIC SCHOOLS

YEARS ENDED JUNE 30, 1944 - 1950

Names of newly-arrived immigrants.—During the fiscal year, a total of 181,311 visa-name slips were transmitted to the Field Service by the Central Office for ultimate distribution to the public schools holding citizenship education classes for naturalization candidates. On March 1, 1950, the decentralization of a part of the work made it necessary to prepare these slips in the Field Offices as a part of the process of mailing Alien Registration Receipt Cards. This action resulted in a saving of time and personnel in the Central Office.

The value of this information in recruiting candidates for naturalization in public-school classes has been forcefully called to the attention of the Service on many occasions. The practice inaugurated in many school-systems and State educational institutions of sending welcoming letters to naturalization candidates has been adopted in an increasing number of localities over the past fiscal year, and has resulted in increased enrollments.

Home study program.—The work of processing the home study program is carried on by State colleges and universities in co-operation with this Service. During the past fiscal year even greater efforts to serve aliens in rural areas have been made through these facilities, especially in Southern and Western States where scattered populations make organized classroom study difficult. As many as 42 nationalities have been represented in one such program, with age ranges of from 17 to 80 years. Educational backgrounds range from no formal education to over four years of college. Many enrollees could neither speak, read, nor write English, yet

In most cases they were measurably aided toward their goal of citizenship through home study.

Of the total reported enrollment of 69,765 candidates for naturalization in public-school classes or courses, 10,327 such persons were reported enrolled in the home study courses.

Public-school certificates of proficiency.—The past fiscal year has witnessed an increased acceptance by the Service and the courts of public-school certificates showing the satisfactory completion by candidates for naturalization of courses of study upon the basic principles of the Constitution and Government and the History of the United States. The following naturalization courts have accepted such certificates as evidence of the petitioner's educational qualifications. All Federal and State Courts in Connecticut, Massachusetts, and Rhode Island, District Courts at Philadelphia, Pennsylvania, Camden, New Jersey, and Trenton, New Jersey, the District Court at Baltimore, Maryland, Supreme Court of New York State at Niagara Falls, New York; District Courts at Detroit and Grand Rapids, Michigan, Toledo, Ohio, and Wayne, Indiana, 37 State Courts in the State of Michigan; four State Courts in Ohio; and one State Court in Indiana; District Courts at Chicago, Illinois, and Milwaukee, Wisconsin; the District and Superior Courts at Sacramento, California; and the District Court at Albuquerque, New Mexico.

Fifth National Conference on Citizenship.—The Immigration and Naturalization Service participated actively in the Fifth National Conference on Citizenship sponsored by the Service, the Department of Justice, and the National Education Association. This year's meeting was held at Washington, D. C., May 20–24, 1950. Once again an entire day of the program was devoted to a discussion of the work of this Service on Saturday, May 20, 1950. Ninety organizations representing patriotic, civic, governmental, education, and social service groups sent more than 200 delegates to participate in the May 20 discussions.

The proceedings were led by the Commissioner of Immigration and Naturalization, who outlined conference objectives and called upon members of his staff and guest speakers to discuss problems confronting the Service.

These discussions, during the morning session, concerned an outline of current immigration and naturalization trends and administering the immigration laws, discussed by Service staff officials, as well as the displaced person and nationality problems of other Government officials. The afternoon session was devoted to the social aspects of naturalization, including discussions of the citizenship education program and public-school educational facilities, assimilation of the foreign-born, and meaningful naturalization court induction ceremonies.

As on previous occasions, the Service provided an exhibit displaying various parts of the Federal Textbook on Citizenship, "Our Constitution and Government." As an additional part of the exhibit, statistical information on the citizenship education work, as carried on in cooperation with the public schools throughout the United States, Hawaii, and Alaska, was set

forth in graphic form.

Naturalization court ceremonies.—The judges of naturalization courts have arranged more meaningful ceremonies for the induction of new citizens. These programs, during the past year, have become even more inspirational, and usually include a statement by the judge at the time of administering the Oath of Allegiance; an address of welcome by a civic leader; a "response" by one of the naturalized persons; and presentation of certificates of naturalization. Various civic and patriotic organizations furnish music and pageantry which add color to the programs.

Many reports carrying the text of "responses" by newly naturalized citizens indicate the depth of feeling for this country entertained by these people. Such ceremonies give these new citizens an opportunity to publicly acknowledge their newly-acquired responsibilities and duties. On the occasion of his naturalization recently, a great actor remarked that the Oath of Allegiance was, he thought, one of the most beautiful and impressive pieces of prose he had ever heard. He further stated that it would be included in his repertoire.

RESEARCH AND INFORMATION

As in every other phase of Service work, the functions relating to appraisal of the work through research and statistical analyses and the dissemination of knowledge concerning the activities of the Service took on importance in the light of present-day events.

Research.—Research of two general types is carried on in the Service. One group constantly reviews and digests the administrative and quasi-judicial decisions made by the adjudicative officers of the Service and the Board of Immigration Appeals, in order that the manuals of the Service may reflect the current thinking and judgments, and the Field decisions thereby may be kept uniform throughout the United States. The Immigration and Nationality Manuals are comprehensive official work-books, containing a total of 2,000 printed loose-leaf pages of concise statements of the substantive and procedural law upon these subjects enacted by Congress, implemented by regulations, and interpreted and applied judicially and administratively. (This work involved the final technical drafting of 1,511 pages of manuscript to replace manual texts affected by changes in the law and regulations or by new interpretations.)

The second kind of research covers a variety of topics connected with immigration and naturalization. There follows a brief statement concerning some of the research reports prepared. "The Deported Criminal Alien" gives a comprehensive picture taken from Service files of the social characteristics of this group of aliens. "The Foreign-Born Population and Old-Age Assistance" brings together available information from a variety of sources to give a full statistical review of a problem concerning which statements have frequently been made without benefit of detailed knowledge. "The Social Characteristics of Aliens Registering for Selective Service during World War II from Three Southwestern States" deals primarily with aliens from Mexico. It gives a detailed picture of their age, marital status, and length of residence in this country and compares this group with all persons registering for selective service. A study, "Aliens Deported as Public Charges", analyzes the reasons for these persons becoming public charges;

it gives the length of residence in the United States, age, marital status, country of birth and length of time spent in institutions in this country.

A program of research has been undertaken summarizing the social characteristics of persons recently naturalized. These studies are providing as comprehensive a picture of these persons as can be obtained from the files of the Service. They measure the relationship between the age of the alien at the time of entering this country and the time required to become naturalized; they also measure the influence of marriage to a native-born or naturalized citizen upon the time required to become naturalized. Changes in occupation and residence from the time of alien registration to the time of naturalization are analyzed. Age, marital status, number of children, and place and length of residence of these persons are described. The study of former nationals of Mexico has been completed, and at the end of the fiscal year, a study of former nationals of Italy was under way.

Statistics.—As in years past, immigration and nationality statistics have been collected, presented, analyzed, and interpreted during the fiscal year covering data on migration, naturalization, derivative citizenship, expatriation, repatriation, exclusion of inadmissible aliens, the apprehension and deportation of aliens illegally in the United States, and data on the adjudicative functions delegated to the Service by law and regulations. Detailed tables on displaced persons admitted under the Displaced Persons Act of 1948 have been prepared on a monthly basis for the Displaced Persons Commission, and special tables have been prepared semi-annually on the displaced persons already in this country. Current statistics have been published periodically in the Monthly Review.

Operations reports from the Field and statistical analyses have proven of increasing value in the study and determination of administrative procedures and policies of the Service. Increasing requests have been made by various Government agencies and transportation companies for passenger reports of aliens and citizens traveling by sea and air, which are compiled and distributed monthly to interested agencies. These reports are used as the official data both by the Civil Aeronautics Board and by air transportation companies at hearings before the Civil Aeronautics Board.

Public and Congressional interest in the heavy number of public and private bills dealing with immigration and naturalization which were introduced in Congress in the past fiscal year has resulted in many requests for additional detailed statistics and analyses. In order to adequately meet the demands of the Senate subcommittee investigating immigration and the Judiciary Committee, which has been considering the omnibus immigration bill, certain statistical studies have been prepared. Chiefly, they have dealt with (1) immigration restriction, (2) the effect of the Displaced Persons Act of 1948 upon future immigration to this country, (3) the effect of liberalizing legislation of the present racial bars upon naturalization, and (4) the adjustment of immigration status of displaced persons residing in the United States. Summaries of several of these studies were published in the Monthly Review.

The turn of political events in the past year has thrown greater

emphasis on internal security and the important role of the United Nations. The Service has been represented in interdepartmental committees dealing with the problems of international migration statistics, and studies have been made and recommendations drafted concerning the improvement of international migration statistics. The Section has cooperated with investigative and intelligence agencies and interdepartmental committees in the collective aim at internal security.

Periodic and special reports and analyses have been prepared dealing with illegal entries, the legality of status of visitors, transits, students, treaty traders, and agricultural workers in the United States, and the steps undertaken to prevent and punish illegal entrants. A report is in process on the prosecutions in the courts for violating immigration and nationality laws.

Other statistical work in the past year included articles for 10 standard reference yearbooks, material for talks by the Commissioner, analyses of procedural changes, analyses of the statistical needs of the Displaced Persons Commission, and the preparation of the Annual Report and tables which are appended hereto.

Information.—The Monthly Review of the Service contains articles and research reports relating to the activities of the Service. During the past year many of the research and statistics reports have been summarized in the Monthly Review. Articles on the operation of the Service at various ports of arrival, on the effects of changes in law, and on the ways of administering the laws have been included in the 12 issues.

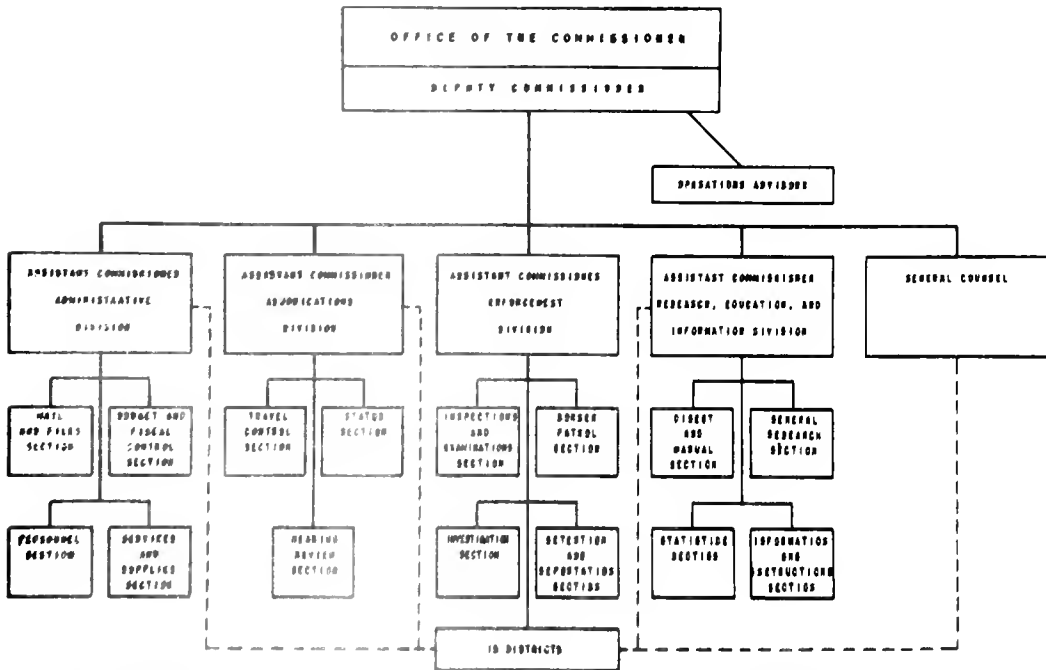

Information from the records is furnished in those individual cases in which certification of naturalization or other information is required from the official records.

In the wider field of public relations, great interest has been shown in the Service, and the mass media of news releases, radio telecasts, motion pictures, and magazine articles were used throughout the year to keep the public informed on the Service work and the reasons for the administrative actions taken.

The changing problems and responsibilities of the Service were reflected in almost every phase of administrative responsibility. Decentralization, with its procedural and organizational changes, the realignment of personnel following the Wong Yang Sung decision, and changes in budget and financial procedures are a few of the outstanding factors that affected the administrative work of the Service.

IMMIGRATION AND NATURALIZATION SERVICE
CENTRAL OFFICE ORGANIZATION

December 1, 1949

William B. Miller

Personnel

On June 30, 1950, the Immigration and Naturalization Service consisted of 6,630 employees. There were 792 in the Central Office and 5,838 in the Field. The latter group included 92 employees stationed in Alaska, Hawaii, Puerto Rico and the Virgin Islands, of the United States, 83 located in Canada and Cuba, and 17 assigned to Germany to assist the Displaced Persons Commission.

Placement and training --The task of filling all positions with persons who have qualified through civil service examinations was a most completed last year. There were only 346 employees occupying positions in the competitive service who did not have permanent or probationary appointments at the end of the fiscal year. Almost half of this number was located in the Washington, D. C., area due largely to the shortage of persons eligible for probationary appointment to such positions as stenographer and typist.

The Board of Civil Service Examiners for the Immigration and Naturalization Service received and rated 21,233 applications for examinations for the positions of Patrol Inspector (Trainee) and Immigrant Inspector. There were 346 appointments made from the lists.

In the Central Office approximately 7,500 interviews were conducted and 4,500 letters and memoranda were prepared in connection with placement activities. Approximately 10,000 personnel actions were processed, 8,000 concerned the Field Service and 2,000 the Central Office.

For a number of years correspondence courses have been offered to Service employees on the regulations and procedures. Employees in the program completed 2,259 lessons during the year on various phases of immigration and nationality work.

Forty-three typists and 40 stenographers employed in the Central Office were enrolled during the year in a refresher training program. Ninety applicants for typist positions and 125 applicants for stenographic positions were given demonstration tests as placement aids. Sixteen tests in Spanish and law were drawn up during the year for testing probationary Patrol Inspectors. The completed tests are reviewed and a progress file is maintained on each trainee.

Classification and employee services --From the classification viewpoint, the fiscal year 1950 was an eventful one. The Classification Act of 1949, which superseded the 923 Act brought the Immigrant Inspector position into classified service. Approximately 1,000 incumbents were thus brought within the classified service. Temporary allocations were made by the Civil Service Commission to grades GS-6, GS-7, and GS-8. The Commission has stated that a complete study of the position will be made before the above grades become permanently fixed. Basic rates of pay were, of course, in conformance with the new classification scheme rather than the Reed-Jenkins Act, under which they were formerly established.

Following the Supreme Court decision of February 20, 1950 in the Wong Yang Sung case, all positions involving the holding of formal hearings in

deportation proceedings, formerly held by Immigrant Inspectors were abolished and the functions placed into a new position as Hearing Examiner. To present the Government's case, a new position as Examining Officer has been recommended for positions comparable to those of Hearing Examiner.

Twelve surveys were conducted during the year and 2,000 positions were reviewed for classification or reclassification. Classification activities in all phases made necessary 12,000 record entries.

Treatments for illness, counseling on problems of health and hygiene and referrals to the Public Health Service or private clinics showed a marked increase over 1949. Sixteen thousand eight hundred ninety-nine cases, as compared with 14,498 in 1949, were handled by the Central Office dispensary. In addition 4,589 sick leave applications were approved by the nurses of the dispensary.

One thousand seven hundred ninety-four cases involving disciplinary actions, loyalty and character investigations, retirement, injury, appeals and complaints, were reviewed and appropriate action begun.

All collecting and accounting for group hospitalization and Federal Credit Union are part of the welfare program for employees. During the fiscal year, the Credit Union disbursed \$69,000.00 in loans. Collections amounted to \$83,972.50. Group hospitalization collections amounted to \$11,198.80. Interviews in connection with these activities numbered 1,381.

Budget and fiscal control

General.—A total appropriation of \$31,229,000 was made to this Service for the fiscal year 1950, an increase of \$779,000 over the amount available for the preceding year. The increase in appropriation for the fiscal year 1950 was required to meet (1) increased salary costs resulting from the Classification Act of 1949 (Public Law 429, 81st Congress, approved October 28, 1949), which became effective October 30, 1949, and (2) higher rates per diem and mileage allowances provided by the Travel Expense Act of 1949 (Public Law 92, 81st Congress, approved June 9, 1949), which became effective July 1, 1949.

Receipts and refunds.—Changes in procedure were made during the year. While the total amount of receipts and refunds did not change materially from last year, there were a number of notable changes. There was an expansion in fine cases arising from increased attempts at illegal entry. There was an increase in the clerks of courts accounts due to the interest of the displaced persons, war brides, and others seeking naturalization. The following figures are illustrative of those items which can be compared with similar work performed during the previous fiscal year.

<u>Comparison of receipts</u>	<u>Year ended June 30</u>		<u>Percentage change</u>
	<u>1949</u>	<u>1950</u>	
<u>Permit and extension fees</u>			
Number received.....	61,530	50,050	- 18.7
Amount.....	\$184,285	\$148,583	-- 19.4
<u>Copying fees</u>			
Number received	2,201	2,116	- 3.9
Amount	1,509	1,746	15.7
<u>Fines</u>			
Number received.....	760	1,081	42.2
Amount assessed	463,417	545,582	17.7
<u>Collection schedules</u>			
Prepared	1,264	708	- 44.0
<u>Clerks of Court fees</u>			
Number received.....	134,150	159,283	18.7
Amount	\$647,067	\$699,753	8.1

During the year a total of \$4,794 was refunded from the appropriation, and from trust accounts a sum of \$55,363

Extra compensation under the Act of March 2, 1931.—Sixteen certified accountings were prepared for the U. S. Court of Claims pursuant to its decision of May 6, 1946 (106 C. Cls. 676) for a total of \$33,008; 188 were certified to the Claims Division of the General Accounting Office for a total of \$65,447, and two claims totaling approximately \$1,400 were reported to the General Accounting Office without certification because of important distinctions in the latter accountings, setting them apart from the test cases decided on May 6, 1946. One of these was decided favorably to the claimant and it is estimated that 100 similar claims will be filed using this as a precedent. The other uncertified case was not the subject of a decision during the year.

The Court of Claims ruling of June 6, 1949, in the cases of Thomas C. Gibney (No. 48572), Joseph M. Ahern (No. 48610), and Donald M. Taylor (No. 48611) became final (114 C. Cls. 38). These, with two companion cases filed by another legal firm, resulted in certifications totaling \$3,381.

A few claims were received from Immigrant Inspectors and others under the May 6, 1946, precedent, some for differences alleged due for the fiscal year 1948, and from employees of the Border Patrol alleging additional compensation due them. Shortly before the close of the year (from June 2 to June 28, 1950) 500 individuals filed suits in the U. S. Court of Claims for extra compensation under the Gibney case (fiscal year 1948 amounts).

The table below gives a comparison of accountings certified under the May 6, 1946, precedent, both to the Court of Claims and the General Accounting Office.

Accountings Certified under Precedent of May 6, 1946
Year ended June 30

	<u>Total</u>	<u>1947</u>	<u>1948</u>	<u>1949</u>	<u>1950</u>
U S Ct of Claims

During the fiscal year 1950, deficiency and supplemental funds to the payment of claims filed pursuant to the Act of March 2, 1937 were appropriated as follows:

<u>Measure Enacted</u>	<u>U S Court of Claims</u>	<u>Genera. Accounting Office</u>	<u>Total</u>
Third Deficiency Appropriation Act, 1949 (Public Law 343 approved October 10, 1949).	\$24,361.92	\$700,361.07	\$724,722.99
Supplemental Appropriation Act, 1950 (Public Law 358, approved October 14, 1949):	671.87		671.87
Second Supplemental Appropriation Act, 1950 (Public Law 430, approved October 28, 1949).	2,074.81 ^{2/}	--	2,074.81
Deficiency Appropriation Act, 1950 (Public Law 583, approved June 29, 1950).	<u>15,786.76</u>	<u>116,139.58</u>	<u>131,926.34</u>
Total:	\$42,895.36	\$816,500.65	\$859,396.01

^{1/} The Third Deficiency Appropriation Act, 1949, includes \$35,127.72 for other obligations which is not included in the \$700,361.07 figure.

^{2/} Under decision of the Court of Claims of the U. S. of June 6, 1949 (114 C. Cls. 38)

Management Improvement --The principal organizational changes resulted from (1) the realignment of personnel, to conform to the Administrative Procedure Act, following the Wong Yang Sung decision, and (2) the decentralization of functions to the Field. Another organizational change was

the transfer of information functions to the Division of Research, Education, and Information.

In connection with the decentralization program, an analysis of the utilization of tabulating equipment in the Central Office was made. Such equipment, formerly divided between the Statistics Section and the Budget and Fiscal Control Section, was centralized in one section. Such centralization permits this section to perform the decentralization of file processes as well as the fiscal work and the machine tabulating for statistics, with better utilization of equipment and personnel, and using uniform procedures which contribute to increased efficiency and a greater economy of operation.

Another piece of decentralization became effective October 1, 1949, when a single form was instituted to replace approximately 10 special bill forms. The new form provides a receipt to be exchanged for every remittance received by the Service. Furthermore, checks and other remittances including cash, formerly transmitted by mail to Washington for deposit, were, after October first, deposited to the credit of the Government in local banks. The standardized billing procedure has brought about a more effective control of collections, made possible a systematic analysis of accounts receivable, and resulted in more prompt payments of bills, as well as simplification in the clerical work to preparing, mailing, and filing bills.

The Service has its own suggestion system, and is participating in a Department-wide incentive awards system. Both programs are designed to give recognition to outstanding units, supervisors and employees, and to make appropriate monetary awards to personnel making superior contributions to efficiency and economy.

In addition to the areas of management improvement discussed above, other projects included an intensive study and analysis of the Service's work measurement system. Revisions in the system are planned to meet the requirements of new or revised legislation, regulations and procedures, and to put into effect such changes as three and a half years of experience have shown to be desirable to make the system more comprehensive, more accurate, easier to understand and more useful to all officials.

During the year the Administrative Manual was frequently amended and enlarged to include many new and revised procedures concerning various phases of administrative operations. A more attractive format was developed that made it easier to read and comprehend.

Space, services, and supplies.—The problem of sufficient space for adequately serving the public, particularly at sea and air ports, and housing the documents necessary in the conduct of the Service is a continuing one, but some steps have been taken to meet it.

All Philadelphia offices of the Service were brought under one roof for the first time in 39 years. New office quarters were provided at Miami, Florida, for the District Office and for the port office in the new Federal

Building. The new offices provide the Miami District with modern facilities that have been needed for a long time. Additional space was provided the Los Angeles District Office for setting up offices for Hearing Examiners. Plans are made to alter the space use on certain floors in the New York Office, to provide offices for hearing purposes. At Brownsville, Texas, also, the Public Buildings Service will make improvements in the Officers Club building that is used in the processing of farm laborers and to correct the very unsanitary conditions which prevailed there. An automobile repair shop with attached automobile storage sheds was erected at the Border Patrol headquarters at Marfa, Texas. In the Central Office an additional 6,000 square feet of space was secured for setting up the files decentralization work area and the tabulating machine unit. This additional space, together with the reduction in Central Office personnel, will aid in relieving space problems in the duplicating unit, stock room, and indices as well as permit removal of most of the naturalization certificate files from the corridors.

Radio communication stations were established at New York, N. Y., Fort Fairfield, Me., and Norton, Vt., during the fiscal year, making a total of 55 fixed stations in operation at the end of the year. The program of replacing the present amplitude modulated radio system with frequency modulated equipment was continued. A portion of the FM equipment purchased late in the fiscal year 1949 has been put in operation but the installation of repeater stations on mountain tops has been slow. Permits have been secured for repeater stations on Santiago Peak and Mount Laguna in California, on Mount Lemmon in Arizona and Mount Franklin in Texas, and arrangements are being made to set up small buildings on the sites obtained for housing the equipment. To improve radio operations in the Blaine, Washington, sector, a remote radio receiver was installed on Sehome Hill in Bellingham, Washington, with a radio link between this point and Blaine. This installation has been in operation for almost a year and has given very good service.

At the close of the fiscal year, the aircraft fleet consisted of one amphibian-type airplane and seven observation planes, with four airplanes on order. In addition, during the year, purchase orders were issued for 132 passenger automobiles, 28 carryalls, 17 busses and 71 trucks.

During the year 800 copies of a Court Directory were duplicated. It contains 175 pages and shows each court in the United States having jurisdiction in naturalization proceedings, the clerk's address and the counties over which jurisdiction is exercised.

Mail and files.—The decentralization program increased rather than decreased the files work in the Central Office in its first few months, because as each file is requested for some current action in the Field the file is consolidated, i. e., the Alien Registration file, letter files, declaration of intention, and all other data pertaining to the individual alien are assembled into one file. Although a files consolidation program has been in operation since 1943, it still has been necessary to consolidate almost half the files requested by the Field before they can be released. An additional work load was caused by the volume of incoming mail which was the highest on record.

When a major portion of the files has been decentralized and the interested aliens have learned to write to the Field headquarters for answers to their questions, the files work of the Central Office will decrease considerably.

During the past fiscal year, 2,722 cubic feet of record material and 348 cubic feet of non-record material were disposed of under the records retirement program.

APPENDIX I

United States Supreme Court Cases

1 Cases decided -- Wong Yang Sung v McGrath, Attorney General, et al., 339 U.S. 33, 70 S. Ct. 445, modified 339 U.S. 908, 70 S. Ct. 564 U.S. ex. rel. Lee Wo Shing, 339 U.S. 906, 70 S. Ct. 565 Cohnstaedt v Immigration and Naturalization Service, 339 U.S. 901 United States ex rel. Knauff v Shaughnessy, 338 U.S. 537, 70 S. Ct. 309, affirming 73 F. 2d 599 United States ex rel. Eichenlaub v Shaughnessy, 338 U.S. 521, and United States ex rel. Wilumet v Shaughnessy, same U.S. ex. rel. Pirinsky v Shaughnessy, 70 S. Ct. 232 Savorgnan v United States, et al. 338 U.S. 491, rehearing denied, 339 U.S. 916

2 Cases denied certiorari -- Potash v Clark, Attorney General, and Watson B. Miller, Commissioner, 338 U.S. 879, 70 S. Ct. 160 Schoeps v Carmichael, 339 U.S. 94 Bejeuhr v Shaughnessy, 338 U.S. 948 Battag, Inc. v. Marshall, 338 U.S. 829 U.S. ex. rel. Eichenlaub v Shaughnessy, 70 S. Ct. 1028 United States v Hans Geisler, 338 U.S. 861 Gregoire v Biddle, 339 U.S. 949 Kaminer v Clark, 338 U.S. 873 U.S. ex. rel. Lapides v McGrath, 338 U.S. 860

3 Additional cases filed during fiscal year -- United States ex rel. Knauff v McGrath, decision below 8 F. 2d. 839 McGrath v Kristensen, certiorari granted, 70 S. Ct. 979 decision below 179 F. 2d 796 Hans and Frieda Ackerman v U.S., decision below 179 F. 2d 983, 179 F. 2d 236 Visic v Dever, decision below 80 F. 2d 924 Wilumet v Shaughnessy, No. 191, 8 L.W. 303.

United States Courts of Appeals Cases

1 First Circuit DiOrto v Nichols, decided June 9, 1950, 182 F. 2d 836.

2 Second Circuit, U.S. ex. rel. Waither v District Director, 75 F. 2d 693 U.S. ex. rel. Pirinsky v Shaughnessy, 177 F. 2d 708 U.S. ex. rel. Luigi Rizzi v District Director, 81 F. 2d 304 U.S. ex. rel. Vajta v. Watkins, 179 F. 2d 37. U.S. ex. rel. Bartsch v Watkins, 175 F. 2d 245 U.S. ex. rel. Bauer v Shaughnessy, 78 F. 2d 756 Cornor v Miller and Shaughnessy, 178 F. 2d 755 Knauff v. Shaughnessy, 79 F. 2d 628 Chu Leung v Shaughnessy, 176 F. 2d 249 U.S. ex. rel. Karoudis v Shaughnessy, 180 F. 2d. 489 Mastrapasqua v Shaughnessy, 180 F. 2d 999 Petricc v District Director, 81 F. 2d 304 Saciarides v Shaughnessy, 180 F. 2d 687 Schmidt v U.S., 77 F. 2d. 450 U.S. ex. rel. Knauff v McGrath, 181 F. 2d 839 Schoitz v Shaughnessy, 180 F. 2d 450 Steddens v Shaughnessy, 177 F. 2d 363 U.S. v Moser, decided June 14, 1950, 82 F. 2d 734 U.S. v Schuete, decided December 29, 1949, 177 F. 2d 1000 U.S. ex. rel. Adel v Shaughnessy, decided July 26, 1950, 83 F. 2d 37

3 Third Circuit Petition of Bartenbach, 178 F. 2d 403, affirming 82 F. Supp. 649 Podovinnikoff v Miller, 179 F. 2d 937 U.S. ex. rel. Somerkamp v Zimmerman, 176 F. 2d 645 U.S. ex. rel. Chin Fat Neu v

Zimmerman, decided March 15, 1950, 180 F. 2d 582

4. Fourth Circuit. Bogiatzis, et al. (6 cases) v Hall, reversing 83 F. Supp. 469, ____ F. 2d ____ Regan v. Papagianakis, 180 F. 2d 889

5. Fifth Circuit. U. S. ex rel Frisch et al v Miller, 181 F. 2d 360 Miller (Carmichael) v Hunt, decided April 7, 1950, 181 F. 2d 363 In re Moisen, decided May 26, 1950, 182 F. 2d 480 Steffner v Carmichael, decided June 21, 1950, 183 F. 2d 19

6. Seventh Circuit. Kavadas v Cross, 177 F. 2d 497 U. S. ex rel Kataiiaikos v Jordan, 179 F. 2d 422 Murra v. United States, 178 F. 2d 670

7. Ninth Circuit. Yanish v Barber, 181 F. 2d 492 Bechtei v United States, 176 F. 2d 741. Paul Fix v United States, 176 F. 2d 746. Chin v Phean, 181 F. 2d 589 Miranda v Clark, 180 F. 2d 257 U. S. v Payne (Harrison), 180 F. 2d 98 U. S. v Yung Poy, 177 f. 2d 144 Simrany v. Jager, 180 F. 2d 650

8. District of Columbia: Bertoldi v McGrath, 178 F. 2d 977 Zander v Clark, 177 F. 2d 649 F. nucane, McGrath and Miller v Bindczyk, decided June 9, 1950, 184 F. 2d 225

TABLE 1. IMMIGRATION TO THE UNITED STATES
1820 - 1950

From 1820 to 1867 figures represent alien passengers arrived; 1868 to 1891 inclusive and 1895 to 1897 inclusive immigrant aliens arrived; 1892 to 1894 inclusive and from 1898 to the present time immigrant aliens admitted.

Year	No. of Persons	Year	No. of Persons	Year	No. of Persons	Year	No. of Persons

Other nonimmigrants.....	130	273	32	5

1/ An immigrant is defined in statistics of the Service as an alien admitted for permanent residence, or as an addition to the population. Therefore, students who are admitted for temporary periods and returning resident aliens who have once been counted as immigrants are included with nonimmigrants, although Section 4 defines such classes as immigrants.

TABLE 4. IMMIGRATION BY COUNTRY,
FOR DECADES: 1820 to 1950 ^{1/}

^{1/}From 1820 to 1867 figures represent alien passengers arrived; 1868 to 1891 inclusive and 1895 to 1897 inclusive immigrant aliens arrived; 1892 to 1894 inclusive and from 1898 to the present time immigrant aliens admitted. Data for years prior to 1906 relate to country whence alien came; thereafter to country of last permanent residence. Because of changes in boundaries and changes in lists of countries, data for certain countries are not comparable throughout.

TABLE 4. IMMIGRATION BY COUNTRY, FOR DECADES:
1820 to 1950 ^{1/} (Continued)

Countries	1921-1930	1931-1940	1941-1950	Total 131 yrs. 1820 - 1950
America.....	1,516,716	160,037	354,804	4,756,270
Canada and Newfoundland ^{2/} ..	924,515	108,527	171,718	3,177,446
Mexico ^{10/}	459,287	22,319	60,589	838,844
West Indies.....	74,899	15,502	49,725	496,696
Central America.....	15,769	5,861	21,665	70,819
South America.....	42,215	7,803	21,831	143,133
Other America ^{15/}	31	25	29,276	29,332
Africa.....	6,286	1,750	7,367	33,427
Australia and New Zealand.....	8,299	2,231	13,805	68,337
Pacific Islands.....	427	780	5,437	16,582
Not specified ^{14/}	228	-	142	254,208

- ^{1/} Data are for fiscal years ended June 30, except 1820 to 1831 inclusive and 1844 to 1849 inclusive fiscal years ended Sept. 30; 1833 to 1842 inclusive and 1851 to 1867 inclusive years ended Dec. 31; 1832 covers 15 months ended Dec. 31; 1843 nine months ended Sept. 30; 1850 fifteen months ended Dec. 31 and 1868 six months ended June 30.
- ^{2/} Data for Austria-Hungary were not reported until 1861. Austria and Hungary have been recorded separately since 1905. In the years 1938 to 1945 inclusive Austria was included with Germany.
- ^{3/} United Kingdom not specified.
- ^{4/} From 1820 to 1868 the figures for Norway and Sweden were combined.
- ^{5/} Poland was recorded as a separate country from 1820 to 1898 and since 1920. Between 1899 and 1919 Poland was included with Austria-Hungary, Germany, and Russia.
- ^{6/} Since 1931 the Russian Empire has been broken down into European Russia and Siberia or Asiatic Russia.
- ^{7/} No record of immigration from Japan until 1861.
- ^{8/} No record of immigration from Turkey in Asia until 1869.
- ^{9/} Prior to 1920 Canada and Newfoundland were recorded as British North America. From 1820 to 1898 the figures include all British North American possessions.
- ^{10/} No record of immigration from Mexico from 1886 to 1893.
- ^{11/} Bulgaria, Serbia, and Montenegro were first reported in 1899. Bulgaria has been reported separately since 1920 and in 1920 also a separate enumeration was made for the Kingdom of Serbs, Croats, and Slovenes. Since 1922 the Serb, Croat, and Slovene Kingdom has been recorded as Yugoslavia.
- ^{12/} Countries added to the list since the beginning of World War I are theretofore included with the countries to which they belonged. Figures are available since 1920 for Czechoslovakia and Finland; since 1924 for Albania, Estonia, Latvia, and Lithuania; and since 1925 for Luxemburg.
- ^{13/} No record of immigration from Rumania until 1880.
- ^{14/} The figure 33,523 in column headed 1901-1910, includes 32,897 persons returning in 1906 to their homes in the United States.
- ^{15/} Included with countries not specified prior to 1925.

^{1/} Displaced persons admitted under the Displaced Persons Act of June 25, 1948, as amended.

TABLE 7. ANNUAL QUOTAS AND QUOTA IMMIGRANTS ADMITTED:
YEARS ENDED JUNE 30, 1946 to 1950

Persons born in colonies, dependencies, or protectorates of European countries are charged to the quotas of the countries to which they belong. Nationality for quota purposes does not always coincide with actual nationality (Section 12 of the Immigration Act of 1924.)

Quota nationality	Annual quota ^{1/}	Quota immigrants admitted

TABLE 41. PETITIONS FOR NATURALIZATION DENIED, BY REASONS FOR DENIAL
YEARS ENDED JUNE 30, 1946 TO 1950

Reasons for denial	1946	1947	1948	1949	1950
Number denied.....	6,575	3,953	2,887	2,271	2,276
Petitioner failed to establish:					
Good moral character.....	820	439	304	233	139
That he is a member of a proscribed organization.....	2	-	1	-	-
That he is attached to the principles of the Constitution and well disposed to the good order and happiness of the United States....	358	178	131	74	40
Knowledge and understanding of the principles of the Constitution..	46	14	37	78	151
Ability to speak the English language.....	42	25	10	25	4
Racial eligibility to naturalization.....	6	1	3	-	1
Legal competency to take binding oath.....	2	-	-	-	3
Continuous legal residence in United States and/or State.....	33	25	18	21	20
That he is an alien, or national of the United States eligible for naturalization.....	183	73	43	36	38
Petitioner failed to:					
Sign petition in own handwriting.....	2	3	6	1	1
Reside within jurisdiction of court.....	38	25	22	33	45
File valid certificate of arrival.....	4	7	8	2	1
File valid declaration of intention.....	59	21	16	28	16
Support petition by oral testimony of witnesses.....	3	6	-	1	2
Lawful admission for permanent residence.....	18	8	2	2	3
Petitioner requested dismissal of petition.....	86	33	45	28	55
Petitioner failed to prosecute petition <u>1</u> /.....	4,121	2,718	1,936	1,474	1,537
Petitioner died before petition disposed of.....	687	338	277	201	197
Other reasons.....	65	39	28	34	23

1/ In most of these cases the petitioner failed to prosecute the petition for naturalization after notice that the petition would be recommended for denial on the merits of the case.
